

Office of the Governor

January 20, 2011

The Honorable Members of the Senate and the Assembly
Seventy-Sixth Legislative Session
Legislative Building
401 South Carson Street
Carson City, Nevada 89701

Honorable Members of the Senate and Assembly:

Transmitted herewith is the 2011-2013 Executive Budget for the State of Nevada.

These are challenging times for our state, a fact reflected in the Executive Budget. Due to the prolonged economic recession and lagging state revenue, I have prepared a budget that represents a 6.4 percent reduction in General Fund expenditures and an 8 percent reduction in overall spending from the prior biennium. My budget contains no new taxes. The Economic Forum projected \$5.33 billion in revenue and my administration has made every effort to honor that figure as the available funds for the operation of state government. We have worked to return State spending to 2007 levels, and I am pleased to report that the proposed 2011-2013 General Fund budget is within one percent of the 2005-2007 biennium.

While this budget does not contain new taxes, it does make use of nearly \$1 billion in available revenues. These measures were necessary due to the staggering increase in Medicaid and other Health and Human Services needs, as well as to preserve as much education funding as we could. There are four principal measures the Legislature will be asked to consider:

1. Continued diversion of nine cents in local property tax in Clark and Washoe Counties to support the Nevada System of Higher Education in those counties;
2. The temporary use of available funds held by a majority of local school districts in debt service accounts;
3. A redirection of room tax funds earmarked for a "supplemental" education account to the basic support of education; and
4. The asset sale of state insurance premium tax.

The Executive Budget also recommends the consolidation, merger, or elimination of numerous state departments and agencies. A five-percent reduction in employee salaries has been included, together

with the continuation of a freeze on merit and longevity pay. In total, \$1.6 billion in spending cuts have been made. In making each decision, care has been taken to place state government spending on a par with our constituents in the private sector. Nevada families and businesses have made do with less through three long years of the economic downturn, and it is my belief that state government must continue to do the same.

Economic development is critical to bolster Nevada's ailing economy. As such, I have increased General Fund support by nearly 50 percent in this area and established a Catalyst Fund to provide resources needed to enable businesses to expand and relocate here. These programs, together with workforce development efforts and other initiatives in my budget, will help get Nevada working again.

Much has been said about the scope of budget cuts to the Department of Health and Human Services. I am pleased to report that many of the programs originally targeted for reduction have been protected in this budget; programs such as personal care services and adult day health care will continue. Through efficiencies and thoughtful examination of each line item, this Administration is convinced the budget is sound, reasonable, and appropriate to the times. We have worked to prioritize the services of state government and to establish performance measures directly tied to outcomes. More needs to be done in this area, and I look forward to working with the Legislature as Nevada Open Government and other initiatives make our budgeting process more transparent and accountable to the people.

Cuts to K-12 and higher education, as well as the shifting of certain services to local government, will certainly be met with debate. I believe these measures can be absorbed by the counties and school districts – provided local leaders are willing to reform their practices and enter into meaningful negotiations with employee associations. State employees alone cannot carry the burden of budget cuts; more must be done in local governments and educational institutions to ensure all public employees share in these sacrifices equally.

I look forward to discussing Nevada's funding priorities, its short-term plan for recovery, and the longer-term restructuring of government. Together, we can chart a new course for our state as we look forward to future years of prosperity.

Sincerely,

BRIAN SANDOVAL
Governor

THE EXECUTIVE BUDGET

This budget document has a three-part format with revenue and expenditure detail for each of the components of Base, Maintenance, and Enhancements. Comparison information is provided for the past actual year, the current year's work program, and each fiscal year of the upcoming biennium. Agencies' requests and the Governor's recommendations are shown for the upcoming biennium. This section contains brief explanations of certain areas of the budget and brief definitions of common terms employed in the budget.

ECONOMIC OVERVIEW

The National Bureau of Economic Research determined that the U.S. economy began to expand in June 2009, 18 months after the country descended into the longest recession since the Great Depression.

Unfortunately, the current national recovery is far from robust.

- ♦ The U.S. posted year-over-year employment declines for 13 months after the recession ended and the employment increase in January 2011 was a mere 0.8 percent.
- ♦ The national unemployment rate is above nine percent.
- ♦ The stock market is still 17.8 percent below the peak reached in October 2007.
- ♦ Consumer confidence remains troublingly low.
- ♦ Housing starts and home prices are still depressed.

*Nevada employment adjusted to reflect data from quarterly reports from employers to DETR.

The weak national recovery has done little to fuel economic growth in the Silver State. Nevada's economy is no longer in free fall, but many of its economic indicators continue to drift downward.

- Jobs are still declining year-over-year and the jobless rate has soared to more than 14 percent on a seasonally adjusted bases.
- Wages and personal income both continue to fall.
- Home prices have not posted a year-over-year gain since the first quarter of calendar year 2007.
- The number of single family home permits issued hovers at near-record lows.
- The foreclosure rate remains highest in the nation.

Nevada's economy is negatively impacted by the weak national recovery. Casinos in other states and foreign countries compete with Nevada casinos, further exacerbating the problem. Most of Nevada's economic sectors, as well as its General Fund revenue sources, are highly dependent on discretionary spending by the state's residents and visitors. Unfortunately, as household wealth evaporated during the Great Recession, people became preoccupied with restoring their retirement nest-eggs and less inclined to make unnecessary purchases.

Nevada's dependence on discretionary spending is clearly apparent in its employment statistics. Nevada jobs in the leisure and hospitality sector make up 27 percent of the state's workforce. Employment at food service and drinking places contributes an additional 17 percent of the total.

Diminished discretionary spending has also impacted jobs in the state's construction sector. In 2005, more than 11 percent of Nevada jobs were high-paying construction jobs — nearly twice the national average share — as consumers bought second and third homes and ever more luxurious casinos were built.

Between the beginning of 2002 and mid-2007, Nevada gained nearly 285,000 jobs, an increase of 28 percent.

- During this same period the number of construction jobs increased 62 percent.

Since mid-2007, the state has lost nearly 200,000 jobs, 40 percent of which are in construction.

- In November 2010, Nevada had almost 90,000 fewer construction jobs than it did in June 2007, a decline from 148,800 to 58,900.

- Between November 2009 and November 2010 the state lost an average of 1,400 construction jobs per month, two-thirds of Nevada's total job loss during that period.

Although improvements are occurring in the Silver State economy, the pace is frustratingly slow.

Measures of Economic Wellbeing

Population

K-12 Schools

Nevada System of Higher Education

- ♦ Wagers placed at Nevada casinos have risen in recent months when compared to the amounts played one year earlier. However, drop (the amount wagered) is well below the peak set in 2006. More states with casino-style gaming are competition for Nevada casinos. Although Las Vegas visitor volume has begun to increase, there is not yet a commensurate increase in drop. If anything, our visitors are more thrifty than before, further evidence of consumers' reluctance to make discretionary purchases.
- ♦ Nevada retail sales activity appears to have stabilized. The state's two-percent sales and use tax collections are a direct measure of retail sales activity in Nevada. Inflation-adjusted average daily two-percent sales and use tax receipts peaked in December 2005. Since then, inflation-adjusted sales and use tax revenues have plunged more than 46 percent and are now at levels last posted more than a decade ago. Adjusting for inflation and population growth, the state's two-percent sales and use tax receipts are lower than at any time since records began in 1982. However, the stabilization shown in recent months is encouraging.

The wellbeing of Nevadans can be measured by the number who require economic assistance. The number of Nevadans receiving benefits from three sources — Temporary Assistance for Needy Families (TANF), Medicaid, and the Supplemental Nutrition Assistance Program (SNAP) — as well as the number of Nevadans counted as unemployed has risen dramatically. Between fiscal year (FY) 2007 and FY 2012, we anticipate:

- ♦ The number of Nevadans receiving TANF benefits will increase 80 percent.
- ♦ The number of Nevadans receiving Medicaid benefits will increase 75 percent.
- ♦ The number of Nevadans receiving SNAP benefits will more than triple.
- ♦ The number of unemployed Nevadans will nearly triple.

The slowdown in the Nevada economy has also precipitated a dramatic slowdown in the state's population growth. In turn, the number of students enrolled in the state's educational institutions — kindergarten through college — are no longer projected to post significant annual increases.

SOURCES OF FUNDING

2011-2013 Biennium Revenue Sources

Nevada's General Fund is the major operating fund of the state. Unless a revenue is required to flow to another fund, it goes to the General Fund. Most specialized funds, such as the Highway Fund, may be spent only on specified activities. However, there are few restrictions on how money in the General Fund

is spent. General Fund resources include the taxes and fees posted to it during the year and any reversions of funds not spent.

General Fund resources represent 37.9 percent of total state revenues. The next two largest sources are comprised of various federal funds and the State Highway Fund. Amounts transferred from the Interim Finance Committee and various other miscellaneous revenues, including fees that support specific services, are also available to fund state operations. The bulk of the General Fund comes from sales tax (30.3 percent), gaming taxes (27.0 percent), the insurance premium tax (9.1 percent), and the modified business tax (MBT) (8.5 percent).

The Governor's Executive Budget must be balanced to revenue projections made by the Economic Forum, a group of private economic and financial experts appointed by the Legislature and the Governor. The Forum's General Fund revenue forecasts are binding on the Governor's Executive Budget and on the Legislatively approved budget. On December 1, 2010, the Forum set the revenue projections that are used by the Governor to construct the 2011-2013 biennial budget.

Sales and use tax collections, which make up nearly one-third of General Fund revenues, have posted three consecutive years of decline. Fiscal

year (FY) 2010 sales and use tax collections are 23.2 percent below FY 2007 amounts without adjusting for inflation. The Economic Forum forecasts FY 2011 sales and use tax collections will be essentially the same as in FY 2010, increasing only 0.3 percent. In FY 2012 and FY 2013, the forecast is for annual increases of only 1.2 percent and 3.2 percent, respectively, far below the 8.3 percent average annual growth observed over the past two and one-half decades.

Total gaming tax collections, the second largest source of General Fund revenues, have also fallen for three consecutive years, plummeting 22.2 percent between FY 2007 and FY 2010. The Economic Forum is forecasting growth in gaming tax collections of about three percent in FY 2011, FY 2012 and FY 2013.

In total, the Economic Forum's 2011-2013 biennium General Fund revenue projection is down \$756.7 million — 12.4 percent — compared with the 2009-2011 biennium and is down \$865.6 million — 14.0 percent — compared with the 2005-2007 biennium.

The unprecedented downturn in General Fund revenues in the 2007-2009 and 2009-2011 biennia was covered by federal funds provided through the American Recovery and Reinvestment Act of 2009, the state's Rainy Day Fund and various one-time funding mechanisms, cuts to state agency operating expenses, and state worker furloughs and benefit reductions, as well as revenue enhancements and tax increases that will expire on June 30, 2011.

For the 2011-2013 biennium, Governor Sandoval proposes that the tax increases from the 2009-2011 biennium sunset as originally intended. In addition:

- ♦ The Governor's Executive Budget saves Nevada's nonfinancial businesses \$16.7 million over the next two years by retaining the provision of Senate Bill 429 of the 2009 Legislative Session that lowers to 0.5 percent the tax rate on the first \$62,500 of taxable quarterly payroll. The 0.5 percent rate is currently scheduled to return to 0.63 percent on June 30, 2011.

The Governor's Executive Budget also advocates augmenting General Fund revenues without increasing taxes paid by Nevadans.

- ♦ The Executive Budget continues to direct the room tax resulting from Initiative Petition 1 to the General Fund through June 30, 2013, with dedication of the funds to K-12 education beginning in FY 2014. This provides more than \$220 million for the 2011-2013 biennial budget.
- ♦ The Executive Budget securitizes a portion of the Insurance Premium Tax for the next five years in order to augment FY 2012 revenues by \$190 million.
- ♦ The Executive Budget extends to June 30, 2013, the sunset provision of Senate Bill 2 of the 25th Special Session. This ensures the state will collect \$60 million in net proceeds of minerals tax that otherwise would not be collected in FY 2012.
- ♦ The Executive Budget directs to the General Fund some revenues now allocated to other accounts, providing nearly \$60 million for the 2011-2013 biennial budget.

In total, these provisions of the Governor's Executive Budget provide more than an additional \$500 million to the state's General Fund, ensuring critical services to the public are maintained in the 2011-2013 biennium without negatively impacting the state's fragile economy.

FUND BALANCES

The Governor's Executive Budget must have a General Fund reserve for each fiscal year of between five and ten percent of proposed General Fund appropriations for the operation of state government. The forecast for the General Fund balance at the end of fiscal year (FY) 2011 is \$168.7 million. The ending balances for FY 2012 and FY 2013 are projected to be \$151.7 million and \$160.4 million, respectively. The beginning balance for the 2011-2013 biennium is five percent of FY 2011 state government operating expenses. The Governor's Executive Budget targets a five percent balance at the end of the 2011-2013 biennium.

General Fund Appropriations

General Fund Ending Reserves

The Rainy Day Fund is a financial reserve for hard times that is distinct from the General Fund reserve. Created by the 1991 Legislature and governed by NRS 353.213, it is formally known as the Fund to Stabilize the Operation of State Government. The Rainy Day Fund exists to cover revenue shortfalls and provide a reserve in the event of a fiscal emergency. For example, during FY 2003, \$135 million was withdrawn from the fund when state revenues fell after the September 2001 terrorist attacks.

Assembly Bill 165 of the 2009 Legislature revises the administration of the Stabilization Fund.

- ♦ The 2009 Legislature revised the administration of the Stabilization Fund to ensure that larger contributions would be made to this Fund in future years. Before this change, when the ending fund balance was greater than ten percent of General Fund appropriations, 40 percent of the amount in excess of ten percent of General Fund appropriations was allocated to the Stabilization Fund. The change reduced the threshold from ten percent to seven percent, thereby increasing the allocation to the Stabilization Fund to 40 percent of the amount of the ending fund balance that exceeds seven percent of General Fund appropriations.
- ♦ The bill requires the state to make a one percent appropriation from the General Fund to the Stabilization Fund at the beginning of each fiscal year, starting in FY 2012. The amount must be based on the Economic Forum revenue projection made in May of odd-numbered years, as adjusted by any legislation enacted by the Legislature that affects General Fund revenue for that fiscal year.
- ♦ In addition, the bill increases the maximum balance allowed in the Stabilization Fund from 15 percent to 20 percent of the total of all General Fund appropriations made for the operation of the government, the funding of schools, and the regulation of gaming.

Rainy Day Fund Ending Balance

Rainy Day Fund Ending Balance

The current economic crisis has again required that the state draw down its Rainy Day Fund balance. The Rainy Day Fund will need to be rebuilt once the state's economy recovers.

SPENDING LIMIT

The limit on total proposed expenditures provided by NRS 353.213 was added to the budgeting process in 1979. It caps General Fund spending per Nevadan at the 1975-1977 biennium level, adjusted for inflation. The budget submitted by the Governor cannot exceed the amount appropriated for the 1975-1977 biennial budget multiplied by the percent change in population from July 1974 and the percent change in the Consumer Price Index (CPI) from the same month. Construction expenditures are exempt from this limit, as are deposits to the Rainy Day Fund and paydown of the unfunded liability for retirees' health insurance.

Since 1974, the state's population has grown more than 350 percent and the CPI has increased more than 340 percent. Starting with the base 1975-1977 biennial budget of slightly less than \$390 million and allowing for the increase in population and CPI, the spending cap for the 2011-2013 biennium is \$7.8 billion, nearly \$2 billion above the Governor's recommended General Fund spending.

SPENDING SUMMARY

The Governor's Executive Budget reduces overall spending by \$1.4 billion — 8 percent — compared with the 2009-2011 biennium, and reduces General Fund appropriations by \$402.3 million or 6.4 percent.

**FY 2012 Statewide Expenditures
(All Revenue Sources)**

Government expenditures fall into two broad categories: those that support the government's activities (government operation) and those that directly support constituents (government services). Spending on personnel costs (primarily salaries and employee benefits) and office expenses (rents, utilities, buildings and grounds costs, etc.) falls into the former; spending on educational programs, human services, public safety, economic development, and infrastructure falls into the latter.

Spending by Function and Funding Source

Share of General Fund Appropriations

of inter-agency transfers, is \$864.1 million above spending from all sources during the 2005-2007 biennium. However, this increase is entirely accounted for by the increase in federal funds, which have risen substantially since the 2005-2007 biennium primarily because the weakness of the Nevada economy has necessitated increased federal assistance through Medicaid, Temporary Assistance to Needy Families, and the Supplemental Nutrition Assistance Program. Excluding federal funds, the 2011-2013 biennial Executive Budget is 1.2 percent below spending during the 2005-2007 biennium.

All functional categories of state government include some spending that is clearly operational; most also include spending on government services. However, spending on Executive Branch elected officials and their staff, on the Legislative and Judicial Branches, on special purpose agencies, and on Finance and Administration is primarily operational.

Caseload is a measure of the demand for a service that is driven by outside forces. For example, the Department of Corrections' caseload is the number of inmates it must house, while caseload for the Nevada System of Higher Education is the number of students it teaches.

Once again, growing caseloads are colliding with shrinking revenues. In order to maintain levels of service for case-load driven costs, the state must restrict growth in other programs and projects. However, no function can be completely spared from cuts.

The Governor's Executive Budget sets spending from all sources net of inter-agency transfers at \$14,595.9 million, \$1,168.9 million less than spending in the 2009-2011 biennium. The Executive Budget, net

**Executive Budget Adjustments to Unrestricted General Fund Revenue
2011-13 Biennium**

DESCRIPTION	FY 2012	FY 2013	2011-13 BIENNIUM
ROOM TAX (I.P.1) Initiative Petition 1 (I.P.1) approved by the 2009 Legislature imposes up to an additional 3% room tax in Clark and Washoe counties but not to exceed a total combined rate of 13% in any area of each county, effective July 1, 2009. Under I.P.1, room tax revenue is deposited in the state General Fund for FY 2010 and FY 2011. The Governor's Executive Budget continues depositing room tax in the state General Fund for FY 2012 and FY 2013, dedicating the funds to K-12 beginning in FY 2014.	\$ 107,715,000	\$ 113,794,000	\$ 221,509,000
NET PROCEEDS OF MINERALS Due to the sunset provisions in S.B. 2 of the 25th Special Session, there may be no taxes collected based on activity for calendar year 2012 or based on actual activity for calendar year 2011. The Governor's Executive Budget extends the sunset provisions of S.B. 2 through June 30, 2013 to ensure revenue is collected for fiscal year 2012.	\$ 60,000,000	\$ -	\$ 60,000,000
SHORT-TERM AUTO LEASE TAX Effective October 1, 2009, S.B. 234 of the 2009 Legislative Session increased the state rate imposed on short-term vehicle rentals from 6% to 10% with the proceeds equivalent to 9% deposited in the state General Fund and 1% deposited in the state Highway Fund (maintaining provisions of A.B. 595 from the 2007 Session). S.B. 234 also eliminated the 4% recovery surcharge, allowing short-term car rental companies to impose a surcharge to recover their vehicle licensing and registration costs. The Governor's Executive Budget redirects the 1% currently being deposited in the State Highway Fund to the State General Fund.	\$ 3,978,000	\$ 3,999,000	\$ 7,977,000
COURT ADMINSTRATIVE ASSESSMENTS Pursuant to NRS 176.059 subsection 9, any money collected for administrative assessments in municipal or justice courts must be transferred to the uncommitted balance of the state General Fund with the exceptions of amounts distributed to the Office of Court Administrator, Central Repository for Nevada Criminal History, the Peace Officers' Standards and Training Commission, the Department of Public Safety for the operation of a computerized interoperative system for information related to law enforcement, the Fund for the Compensation of Victims of Crime, the Advisory Council for Prosecuting Attorneys and programs within the Office of the Attorney General related to victims of domestic violence. Only after those amounts are distributed can the remaining amount be transferred to the uncommitted balance of the state General Fund.	\$ 4,831,187	\$ 4,725,744	\$ 9,556,931

SUPPLEMENTAL ACCOUNT FOR MEDICAL ASSISTANCE TO INDIGENT PERSONS The Governor's Executive Budget continues transfers from the Supplemental Account for Medical Assistance to Indigent Persons created in the Fund for Hospital Care to Indigent Persons to the state General Fund for FY 2012 and FY 2013.	\$ 19,617,508	\$ 19,779,105	\$ 39,396,613
QUARTERLY SLOT FEES The Governor's Executive Budget reduces the amount deposited in the Revolving Account to Support Programs for the Prevention and Treatment of Problem Gambling from \$2 to \$1 for each slot machine. This is subject to the license fee imposed pursuant to NRS 463.373 and 463.375.	\$ 766,297	\$ 776,651	\$ 1,542,948
MODIFIED BUSINESS TAX - NON-FINANCIAL INSTITUTIONS S.B. 429 of the 2009 Legislative Session changed the structure and tax rate for the Modified Business Tax (MBT) on General Business (nonfinancial institutions) by creating a two-tiered tax rate in lieu of the single rate of 0.63%, effective July 1, 2009. Under S.B. 429, a nonfinancial business paid a tax rate of 0.5% on all taxable wages (gross wages less allowable health care expenses) up to \$62,500 per quarter, and a rate of 1.17% on taxable wages exceeding \$62,500 per quarter. The change to the MBT-General Business sunsets effective June 30, 2011. The Governor's Executive Budget maintains the two-tiered tax rate, lowering the rate for taxable wages exceeding \$62,500 per quarter from 1.17% to 0.63%. Nonfinancial businesses with taxable wages up to \$62,500 per quarter will not see a raise to the previous 0.63%, but will remain at the 0.5% tax rate.	\$ (8,300,000)	\$ (8,400,000)	\$ (16,700,000)
SECURITIZATION OF A PORTION OF THE INSURANCE PREMIUM TAX The Governor's Executive Budget securitizes a portion of the Insurance Premium Tax for the next five years. This ensures the Executive Budget is balanced without negatively impacting the state's economy while maintaining critical services to the public.	\$ 190,000,000	\$ -	\$ 190,000,000

The Governor's Executive Budget continues the reallocation of 4 cents per \$100 of assessed value of property tax generated from Clark and Washoe Counties but requires the funds to be deposited into the state operating budgets of the University of Nevada, Reno and the University of Nevada, Las Vegas. The amount collected from each county will go directly to the university that operates within that county.	\$ 26,864,931	\$ 27,032,199	\$ 53,897,130

The Governor's Executive Budget continues the reallocation of 2.6 cents per \$100 of assessed value in FY 2012 and 2 cents in FY 2013 from Clark and Washoe Counties' capital rate, but requires these funds to be deposited into the state operating budgets of the University of Nevada, Reno and the University of Nevada, Las Vegas.	\$ 17,462,205	\$ 13,516,099	\$ 30,978,304

The Governor's Executive Budget reduces the reserve requirement to the lesser of the amount of six months of principal and interest payments due on all of the outstanding bonds of the school district in the next fiscal year or 10% of the outstanding principal amount of the outstanding bonds of the school district.	\$ 212,500,000	\$ 212,500,000	\$ 425,000,000

Sec. __. The State Controller shall pay the annual salaries of Supreme Court Justices, District Court Judges, the Governor, the Lieutenant Governor, the Secretary of State, the State Treasurer, the State Controller and the Attorney General in biweekly installments for each day worked up to and including the date of payment. The payment of a portion of the annual salaries of these officers at the end of a calendar year for the purpose of reconciling the amount of the salary paid during that calendar year with the amount of the salary set forth in statute for that office must not be made if it will result in the issuance of a separate check.

Sec. __. Notwithstanding the provisions of subsection 5 of NRS 120A.620, at the end of Fiscal Year 2011-2012 and Fiscal Year 2012-2013, of the balance in the Abandoned Property Trust Account in the State General Fund, the first \$7,600,000 must be transferred to the Millennium Scholarship Trust Fund created by NRS 396.926 with the remainder transferred to the State General Fund, subject to the valid claims of holders pursuant to NRS 120A.590 and owners pursuant to NRS 120A.640.

Sec. __. 1. If the Executive Director for Veterans' Services determines that delays in the receipt of federal reimbursement for services provided by the Veterans' Home in Southern Nevada will result in insufficient revenues to pay authorized expenditures, he may submit a request for a temporary advance from the State General Fund to the Director of the Department of Administration to pay authorized expenditures to support operational costs of the Veterans' Home.

2. The Director of the Department of Administration shall provide written notification to the State Controller and to the Senate and Assembly Fiscal Analysts of the Fiscal Analysis Division of the Legislative Counsel Bureau if he approves a request made pursuant to subsection 1. The State Controller shall draw a warrant upon receipt of such a notification.

3. An advance from the State General Fund approved by the Director of the Department of Administration as authorized pursuant to this section is limited to the total estimated reimbursement due from the Federal

Government for operational costs incurred by the Veterans' Home in Southern Nevada.

4. Any money which is temporarily advanced from the State General Fund to the Veterans' Home in Southern Nevada pursuant to this section must be repaid on or before the last business day in August immediately following the end of the fiscal year.

Sec. __. 1. If the Director of the State Department of Conservation and Natural Resources determines that, because of delays in the receipt of revenue for services billed to the Federal Government, local governments and other state governments, the amount of current claims for expenses incurred in the suppression of fire or response to emergencies exceeds the amount of money available to pay such claims within 30 days, he may request from the Director of the Department of Administration a temporary advance from the State General Fund to pay authorized expenses.

2. The Director of the Department of Administration shall provide written notification to the State Controller and to the Senate and Assembly Fiscal Analysts of the Fiscal Analysis Division of the

Legislative Counsel Bureau if he approves a request made pursuant to subsection 1. The State Controller shall draw his warrant upon receipt of such a notification.

3. An advance from the State General Fund:

(a) May be approved by the Director of the Department of Administration only for expenses incurred in the suppression of fires or response to emergencies charged to the budget account for forest fire suppression of the Division of Forestry of the State Department of Conservation and Natural Resources. Before approving the advance, the Director shall verify that billings for reimbursement have been sent to the agencies of the Federal Government, local governments or other state governments responsible for reimbursing the Division of Forestry for costs incurred in fire suppression or emergency response activities.

(b) Is limited to the total due from outstanding billings for reimbursable expenses incurred in the suppression of fires or response to emergencies as approved for payment to the State by agencies of the Federal Government, local governments and other state governments.

4. Any money which is temporarily advanced from the State General Fund to the budget account for forest fire suppression pursuant to this section must be repaid on or before the last business day in August immediately following the end of the fiscal year.

Sec. __. 1. If the Governor orders the Nevada National Guard into active duty as described in NRS 412.122 for an emergency as described in NRS 353.263 and the Adjutant General of the Nevada National Guard determines expenditures will be required, the Adjutant General may request from the Director of the Department of Administration a temporary advance from the State General Fund for the payment of authorized expenses.

2. The Director of the Department of Administration shall provide written notification to the State Controller and to the Senate and Assembly Fiscal Analysts of the Fiscal Analysis Division of the Legislative Counsel Bureau of the approval of a request made pursuant to subsection 1. The State Controller shall draw his warrant upon receipt of the approval by the Director of the Department of Administration.

3. An advance from the State General Fund:

(a) Must be approved by the Director of the Department of Administration for expenses incurred as a result of activation of the Nevada National Guard.

(b) Is limited to \$25,000 per activation as described in subsection 1.

4. Any money which is temporarily advanced from the State General Fund to an account pursuant to subsection 3 must be repaid as soon as possible, and must come from the emergency account established under NRS 353.263.

Sec. __. If the State of Nevada is required to make payment to the United States Treasury under the provisions of Public Law 101- 453, the Cash Management Improvement Act of 1990, the State

Controller, upon approval of the State Board of Examiners, may make such payments from the interest earnings of the State General Fund or interest earnings in other funds when interest on federal money has been deposited in those funds.

STATE FISCAL STABILIZATION ACCOUNT

101-1007

PROGRAM DESCRIPTION

Fiscal Year 2010 - The Stabilization program is a one-time appropriation of approximately \$48.6 billion that the U.S. Department of Education awarded to Governors to help stabilize state and local budgets in order to minimize and avoid reductions in education and other essential services, in exchange for a state's commitment to advance essential education reform in four areas: (1) making improvements in teacher effectiveness and in the equitable distribution of qualified teachers for all students, particularly students who are most in need; (2) establishing pre-K to college and career data systems that track progress and foster continuous improvement; (3) making progress toward rigorous college and career-ready standards and high-quality assessments that are valid and reliable for all students, including limited English proficient students and students with disabilities; and (4) providing targeted, intensive support, and effective interventions for the lowest-performing schools.

Fiscal Year 2011 - The Education Job Fund (Ed Jobs) is a one-time appropriation of approximately \$83.1 million. The (Ed Jobs) program, which is authorized under section 101 of Public Law No. 111-2226 (Act), provides essential resources to assist local school districts in saving or creating education jobs and helping to ensure that America's students are prepared to succeed in college and careers.

AG - SPECIAL FUND

PROGRAM DESCRIPTION

The Attorney General Special Litigation Fund was established to pay expenses directly related to investigation, preparation, prosecution, and defense of suits unknown at the time of budget preparation. Certain expenses are reimbursable by other state or county agencies. The Nuclear Waste Litigation category covers any costs of litigation against the United States. The General Fund supports the general litigation category and the state portion of Nuclear Waste litigation. Statutory Authority: NRS Chapter 228.

The Litigation Division, directed by the Solicitor General, is responsible for managing all of the litigation in the Office of the Attorney General. The nature of litigation is such that the number, complexity, and cost of cases cannot be predicted. The Solicitor General monitors all litigation and discovery costs. This account pays for the depositions, independent medical examinations, expert testimony, and witness testimony required for a proper defense in many of these cases.

The Construction Law Counsel represents the Public Works Board. The Construction Law Counsel maintains a part-time office at the Public Works Board offices and works closely with them to negotiate and administer contracts; develop regulations, policies and procedures; and coordinate with local government and state agencies. The Construction Law Counsel also works closely with staff to provide early intervention on potential disputes to promote early resolution where appropriate avoiding costly litigation.

AG - VIOLENCE AGAINST WOMEN GRANTS

101-1040

PROGRAM DESCRIPTION

The Violence Against Women Grants account was created to simplify the accounting for violence against women grants. In state fiscal year 2008, the Office of the Attorney General received two grants originating out of the Office on Violence Against Women. The STOP Violence Against Women Formula Grant (STOP Revenue General Ledger 3580) and the Sex Assault Services Program Grant (SASP) is awarded to the state annually and is calculated on a population-based formula. The state's award is then passed down to governmental and non-profit agencies for projects that fall within the federal purpose areas and state priority areas. This award supports law enforcement and prosecution projects, victim services programs, and courts programs addressing domestic, sexual, or dating violence and/or stalking. The second award is a discretionary, competitive grant. The Grants to Encourage Arrest Policies Program (GEAP - Revenue General Ledger 3581) was first awarded to the office in 1997. Since that time, the Office of the Attorney General has received four supplemental, continuation and new awards under that program. Qualifying projects are administered with the help of other agencies and contractors.

AG - VICTIMS OF DOMESTIC VIOLENCE

101-1042

PROGRAM DESCRIPTION

The Victims of Domestic Violence budget encompasses programs relating to domestic violence, sexual assault, stalking, batterer treatment, and the Office of Ombudsman for Domestic Violence. The Domestic Violence Ombudsman, in conjunction with the Batterer's Certification Committee, is responsible for standardizing and overseeing the treatment of domestic violence offenders as well as assisting in the statewide coordination of domestic violence services and training.

The purpose of the Office of Ombudsman is to prepare reports relating to victims of domestic violence, provide necessary assistance to victims and provide education to the public related to domestic violence including prevention assistance available to victims and treatment available for persons who commit domestic violence. The Ombudsman administers the account for district court assessments collected as a result of domestic violence convictions. The district court assessment monies can be utilized to assist in training law enforcement, prosecutors, the judiciary, and the general public in the area of domestic violence. District court assessments also support the Committee on Domestic Violence activities and have been partially used in previous years to support the Ombudsman position itself.

The purpose of the Batterer's Certification Committee is to adopt regulations to evaluate, certify, and monitor programs that treat persons who commit domestic violence; review and evaluate existing domestic violence training programs provided to peace officers; and make recommendations to the Commission on Peace Officers' Standard and Training. Statutory Authority: NRS 228.440 and 228.470.

TREASURER - MUNICIPAL BOND BANK REVENUE
745-1086

PROGRAM DESCRIPTION

The Municipal Bond Bank, administered by the State Treasurer, was created by the 1981 Legislature for support of certain municipal projects through a bond bank. The Bond Bank allows the state to sell its general obligation bonds to provide funds to purchase local bonds. The state's higher bond rating saves local entities substantial amounts of interest payments. NRS 350A.150 authorizes the State Board of Examiners, at the request of the State Treasurer, to issue up to \$1.8 billion.

BASE

This request continues the funding for principal and interest payments for existing obligations. One-time expenditures have been eliminated and partial year costs have been annualized.

741-1330

PROGRAM DESCRIPTION

Nevada State Printing provides mission-critical and other offset and digital printing, copying, and related services to all three branches of state government and other government entities in a timely and cost-efficient manner. Examples of mission-critical material would be decisions of the Supreme Court; tax bills for the Department of Taxation; bills, histories, and journals for the Legislature; and sample ballots for the counties. State Printing also produces all the forms, business cards, letterhead, envelopes, training material, and reports needed to make government function. Statutory Authority: NRS 334.

SUPREME COURT

PROGRAM DESCRIPTION

The Supreme Court is the highest court of record in Nevada's court system. Pursuant to section 4 of Article 6 of the Nevada Constitution, the Supreme Court has appellate jurisdiction in all civil cases arising in district court and on questions of law alone in all criminal cases in which the offense charged is within the original jurisdiction of the district courts. Additionally, the Supreme Court establishes rules for its own government, and provides leadership and administrative direction to the Nevada judiciary and to the State Bar of Nevada. The Supreme Court consists of five departments: the Justices' chambers, the Office of the Clerk of the Court, central legal staff, the Law Library, and the Administrative Office of the Courts. Its courtrooms, chambers and offices are located in Carson City and Las Vegas. Its budget funds the expenditures of Justices' chambers, the Office of the Clerk of the Court, central legal staff, and settlement conferences, primarily through administrative assessments collected pursuant to NRS 176.059, and through a general fund appropriation.

BASE

The base budget continues funding for 7 justices, 81 positions, and the direct operating expenditures of the Supreme Court. One-time expenditures have been eliminated and partial year costs have been annualized.

There are 82 positions in the Supreme Court's budget; however, the court has temporarily suspended funding for one position until the 2013-2015 biennium in order to reduce its general fund appropriation need for the 2011-2013 biennium. Also, the Legislature approved funding for 89.02 employees during the 2009-2011 biennium; however, due to a significant administrative assessment revenue shortfall, the court eliminated 7.02 positions and their costs from its budget along with other significant operating costs such as national state court association dues, training, and telephone infrastructure costs. These costs are no longer reflected in the court's base budget.

JUDICIAL SELECTION

101-1498

PROGRAM DESCRIPTION

Article 6, Section 20, of the Nevada Constitution created the Commission on Judicial Selection. The commission's role is to select three nominees for any Supreme Court justice or district court judge vacancy that might occur before the expiration of any term of office. The commission's workload depends on the number of mid-term vacancies that occur and the number of applicants per vacancy. This budget funds the costs associated with the commission and the judicial selection process through a general fund appropriation. See NRS 1.380 through 1.410.

SENIOR JUSTICE & SENIOR JUDGE PROGRAM

101-1496

PROGRAM DESCRIPTION

Article 6, Section 19, of the Nevada Constitution authorizes the Chief Justice to recall to active service any justice or judge who consents to such a recall and who has not been removed for cause or defeated for retention in office. Former judges are recalled to expedite judicial business, assist in districts with congested calendars and to act for those who are disqualified or unable to perform. This budget compensates the "senior justices and senior judges" for being recalled and assigned temporary duty. The assignment of former judges is a cost-effective method for state and county governments to avoid the costs of funding full-time judicial positions and from having to provide additional courtroom facilities and staff. This program is funded primarily through a general fund appropriation and administrative assessment revenue collected pursuant to NRS 176.059.

JUDICIAL PROGRAMS AND SERVICES DIVISION

PROGRAM DESCRIPTION

The Judicial Programs and Services Division manages programs and projects to assist trial courts in providing access to justice throughout the Nevada judiciary. The primary functions of the division include: administering the Court Interpreters Program for certification of court interpreters (NRS 1.500-1.560, NRS 50.054); assisting rural courts with requests related to forms, grants, security assessments/risks, etc.; tracking and monitoring felony bond forfeitures submitted to the state (NRS 178.508, NRS 178.512, NRS 178.514); administering the Uniform System for Judicial Records, which includes collecting, analyzing, and reporting statewide court and judicial statistics [NRS 1.360 (4, 8, 10), NRS 38.255]; and administering Federal Court Improvement Program grants. This budget is funded primarily from a general fund appropriation.

BASE

The base budget continues funding for nine positions and their associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized. Not included in the base budget is funding for one position. The court temporarily suspended funding for the position during the 2011-2013 biennium in order to further reduce its general fund appropriation need.

UNIFORM SYSTEM OF JUDICIAL RECORDS

101-1486

PROGRAM DESCRIPTION

The Uniform Systems of Judicial Records (USJR) is responsible for the standardization, advancement, and support of technology in all 79 trial courts throughout the state. USJR staff work directly with local, state and federal criminal justice agencies and courts to provide technological solutions to manage judicial caseloads and records, and to improve and address statistical reporting requirements. Major projects include the Nevada Court System (a centralized case management system that distributes case information to multiple courts via secured wide area networks), and the Multi-County Integrated Justice Information System (a secured data exchange system interfacing various criminal justice agencies, such as law enforcement, prosecuting offices, Public Safety, and the courts). This budget account is funded primarily from administrative assessment revenue collected pursuant to NRS 176.059.

SPECIALTY COURT

101-1495

PROGRAM DESCRIPTION

Specialty Courts are judicial problem-solving processes designed to address the root causes that contribute to criminal involvement. Specialty Courts facilitate testing, treatment and oversight of certain persons over whom the court has jurisdiction and who the court determines suffers from a mental illness or abuses alcohol or drugs. This includes, without limitation, Specialty Courts established pursuant to NRS 176A.250 or 453.580. A Specialty Court Funding Committee comprised of justices and general and limited jurisdiction judges authorize distribution of funds to Specialty Courts. The budget is funded from administrative assessment revenue collected pursuant to NRS 176.0613, administrative assessment revenue collected pursuant to NRS 176.059, and 10 percent of bail forfeitures collected pursuant to NRS 178.518.

BASE

The base budget continues funding Specialty Court programs throughout the state. The amount in the base budget for distribution to programs in fiscal year 2012 represents a 20% decline from the amounts distributed to those programs in fiscal year 2011. The amounts for programs in the base budget are those approved by the Specialty Court Funding Committee at their December 2010 meeting.

JUDICIAL DISCIPLINE

101-1497

PROGRAM DESCRIPTION

The Nevada Commission on Judicial Discipline was created by constitutional amendment on November 2, 1976 and charged with the responsibility of investigating allegations of misconduct, violations of the code of judicial conduct or disability of judges. On November 8, 1994, the jurisdiction of the commission was expanded to include censure of Justices of the Peace and Municipal Court Judges. The seven-member commission receives and investigates complaints against judges. It was governed by administrative and procedural rules of the Nevada Supreme Court; however, on February 21, 2003, the Nevada Supreme Court repealed Part VII of its rules and the commission has since adopted its own procedural rules to govern its proceedings. The Standing Committee was created in 1998 by Supreme Court Rule to resolve ethical disputes arising in the course of campaigns for judicial office and to provide judges and aspirants to judicial office advisory opinions regarding ethical matters that may arise in the ordinary course of judicial service, or in the elective or appointment process. Statutory Authority: Nevada Constitution - Art. 6, Section 21 and Nevada Supreme Court Rules.

PROGRAM DESCRIPTION

The administrator for the State Public Works Division (SPWD) oversees and manages the legislatively approved Construction Improvement Program (CIP) and four operational budget accounts: the SPWD Facility and Condition Analysis account, which is responsible for inspecting and evaluating the short and long-term facilities maintenance needs for all state-owned buildings; the SPWD Engineering and Planning account, which manages the implementation of the approved CIP and assumes the building code related inspection functions for all state-owned buildings; the Buildings and Grounds account, which provides statewide services associated with physical building and grounds maintenance and housekeeping for most state-owned buildings in Carson City, Reno, and Las Vegas; and the Marlette Lake Water System account, which provides a reliable water delivery system for two municipalities.

The SPWD administrator is supported by the State Public Works Board, which functions in an advisory role to the administrator regarding the planning and implementation of the Governor's Recommended Capital Improvement Program. The board currently consists of a seven-member governing board consisting of five members appointed by the Governor, one member appointed by the Majority Leader of the Senate, and one member appointed by the Speaker of the Assembly. A bill draft request has been submitted to re-define authority and composition of the board.

The State Public Works Division's statutory functions include: oversight for all construction of public buildings on state property; develop and implement a Governor's Recommended Capital Improvement Program; plan, prepare, design and construct approved capital improvement projects; provide engineering and architectural services to all state departments for any building construction project occurring on state property; function as the State Building Official for the State of Nevada; verify the qualifications of bidders for all SPWD construction projects; inspect state buildings; provide a system of accounting for life-cycle costs for state buildings; participate in interstate, regional, and national planning projects; and review all proposed adoptions and changes to the Uniform Plumbing Code by any city or county within the state. Statutory Authority: NRS 338, 341, 393 and 444.

PROGRAM DESCRIPTION

The Marlette Lake Water System was authorized for purchase by the 1963 session of the Nevada Legislature from the Curtiss-Wright Corporation at a cost of \$1,650,000. The State Public Works Division of the Department of Administration administers the system. The adjoining lands are administered and controlled by the Department of Conservation and Natural Resources. The major objectives of this system are to preserve and protect the sources of water, provide adequate supplies of water to the areas served, maintain the system in a condition calculated to assure dependable supplies of water, and sell water under equitable and fiscally sound contractual arrangements. This system is funded from water sales to Carson City and Storey County. Statutory Authority: NRS 331.160.

PROGRAM DESCRIPTION

The Data Communications and Network Engineering Unit is one of three budget accounts in the Communications Division. This unit is responsible for all tasks related to developing, operating, and maintaining statewide data communications infrastructure. Most of this effort is focused on the Wide Area Network (WAN) termed SilverNet. Also included is maintaining "connectivity with the outside world" such as Internet access for the state, and dedicated purpose circuits (e.g., federal program connections). Staff tasks include installing and troubleshooting data circuits; installing, operating and maintaining routers, wireless bridges, firewalls, event logging, and data switches that tie the circuits together; and engineering, analyzing, and troubleshooting the complex WAN itself. Staff supports over 8,500 network nodes representing personal computers, non-intelligent workstations, servers, and network devices (routers, firewalls and switches) in more than 150 locations throughout the state. Customers include all Executive Branch agencies, Constitutional Offices, the Judicial Branch, and to a limited extent the Legislative Branch. Statutory Authority: NRS 242.

PROGRAM DESCRIPTION

The Network Transport Services Unit is one of three budget accounts in the Communications Division. This unit, through a combination of microwave, fiber optics, and other wireless technologies, provides transport of communications circuits for federal, state, and local government public safety entities, many of which are responsible for public safety. Network Transport Services also provides large transport circuits for data communications and PBX services to other communications units within Enterprise IT Services, such as SilverNet and PBX Telecommunications, thereby indirectly supporting nearly every state agency. Staff tasks include design and development of backbone communication infrastructure; installation, operation and 24/7 maintenance of microwave and fiber optic communication equipment; troubleshooting complex transport system problems; and maintaining and developing remote communication sites and facilities. Staff is directly responsible for over 600 microwave circuits, and transport equipment at over 130 sites that carry public safety traffic over approximately 1,515,000 circuit miles. Network Transport Services communication sites also host other agency communications equipment and antennas on its towers, providing commercial and emergency backup power for their equipment. Statutory Authority: NRS 242 & NRS 233F.

PROGRAM DESCRIPTION

The State Archives and Records Management programs administer comprehensive, cost-effective programs for the creation, maintenance, retention, preservation, and disposition of records of the Executive Branch of state government. Archives and Records program staff offer technical support to the Nevada Supreme Court, Legislative Counsel Bureau, tribal and local governments, and the Nevada System of Higher Education. The State Archives preserves and makes accessible records that document the history, organization and functions of the Nevada state government; its influence and impact on the lives of its people; and protection of their civil rights. The Records Management program prepares records retention schedules, which enables all state agencies to reduce their records storage holdings and the related costs; and operates the State Records Center, providing high-capacity, low-cost, secure storage for over 48,000 cubic feet of inactive official state records. These records may be accessed on demand by state agencies as needed. Statutory Authority: NRS 378.230 through 378.320.

PROGRAM DESCRIPTION

The Nevada Literacy Office supports and promotes the efforts of all non-profit state, county, and local literacy programs of instruction for educationally disadvantaged Nevadans across their lifespan. The Literacy Office provides training and resources to adult educators who work in libraries and other agencies or organizations to assure that all residents, including the over 300,000 educationally disadvantaged adults in Nevada, have equitable access to training or referral information and materials. The Literacy Office is designed to serve as a central clearinghouse on literacy issues, materials, and teacher/tutor training statewide. Statutory Authority: NRS 380A.031.

The Nevada Literacy Office was eliminated with Legislative approval through A.B. 6, Section 10 (c) effective July 1, 2010. The Development Program of NSLA will be assigned select core programs and projects related to statewide reading programs and the operation of a central clearinghouse for statewide literacy services and information. To meet the core initiatives, the Administrative Assistant position has been transferred to the Development Program (budget account 2891) to provide staff support for select literacy programs.

Core initiatives for statewide reading programs (Summer Reading, El Dia de Los Ninos/El Dia de Los Libros; Statewide Library Card Initiative, Nevada Reading Week, and Letters About Literature) and the operation of a clearinghouse for statewide literacy services and information will be provided by Library and Archives Development staff. Statewide training needs that were met by the Literacy Office in the past will either not be provided or provided through contracts with qualified individuals if funding can be obtained. The ability to provide referrals to statewide services or information will be limited. New initiatives focused on health literacy, financial literacy and information literacy will be eliminated resulting in the loss of past investments in staff time and funding.

PROGRAM DESCRIPTION

Imaging and Preservation Services (IPS), formerly Micrographics and Imaging program (MIP) provides high-quality digital imaging and microfilm capture of essential government documents at significant savings to client agencies of state and local governments. The program also provides on-site surveys, consultation on appropriate media storage, seamless uploading of digital images directly to client databases and the production of CDs, DVDs, fiche, and roll film. The program ensures government documents are preserved in accordance with NRS 239.070, 378.255 and 378.280 and provides services for scanning, printing, and storage of large format maps and plans onto either microfiche or roll film. The program develops and duplicates film produced by larger state agencies with their own microfilming staff and assists these agencies in selecting equipment that may be needed for their operations. Effective July 1, 2011, the Micrographics and Imaging Program will be privatized and the office will be closed.

PROGRAM DESCRIPTION

The Distributive School Account (DSA) provides direct state financial aid to school districts and charter schools for K-12 public education in Nevada. The funding formula, identified by NRS 387.121 as the "Nevada Plan," provides school districts a guaranteed dollar amount of basic state support per student plus additional funds for programs such as special education, the adult high school diploma program and reimbursement of certain student transportation costs. School districts and charter schools receive quarterly apportionments from the DSA on the basis of student enrollment. Each school district is guaranteed a specific amount per student, which is developed through a formula that considers the demographic, economic, and wealth characteristics of the district. Allotments of licensed employees and related costs are determined from tables that recognize the differences in costs between rural and urban school districts as well as small and large districts. Transportation costs are incorporated into the allocation process.

For purposes of calculating basic support, enrollment includes students enrolled in grades one through twelve, students in ungraded special education classes, and six-tenths of the count of students enrolled in kindergarten and in preschool programs for children with special needs. Additionally, school districts receive support for part-time courses necessary to receive a high school diploma; including programs operated in the Nevada Department of Corrections system by the school districts in Carson City, Clark County, Pershing County, and White Pine County.

Special education is funded on an amount per unit basis as established by each session of the Legislature. School districts and charter schools are partially protected from decreases in enrollment through a one-year hold harmless statutory provision, which guarantees a payment based on the highest enrollment in the current or prior year unless the decrease is greater than 5%, in which case the payment guarantee is based on the highest enrollment in the current or prior two years.

The DSA is funded by a General Fund appropriation, sales taxes on out-of-state sales, income from federal mineral land leases, interest from the Permanent School Fund, and a portion of the state taxes on slot machines. In addition to the state funds received by the school districts through the DSA, the school districts receive the 2.25% local school support sales tax that is part of the DSA guarantee; the abated \$0.75 per \$100 of assessed valuation property/mining tax, one-third of which is part of the DSA guarantee; governmental services taxes; franchise taxes; and various other local and federal revenues. Statutory Authority: NRS Chapter 387.

PROGRAM DESCRIPTION

NRS 385.357, passed by the 19th special session of the Nevada State Legislature, requires all public schools in Nevada to develop plans to improve the achievement of students. The plans are to identify problem areas that need to be addressed as well as strategies to be used to help students be successful and help schools meet the Adequate Yearly Progress mandated by the No Child Left Behind Act. Many of the strategies require funding in excess of what is now available to the schools. The funding in the School Remediation Trust Fund supports the improvement plans each public school and each school district have developed.

BASE

This request continues the current Full-Day Kindergarten program.

NDE - INCENTIVES FOR LICENSED EDUCATION PERSONNEL
101-2616

PROGRAM DESCRIPTION

NRS 391.166, passed by the 23rd special session of the Nevada State Legislature, requires the Board of Trustees of each school district in Nevada to establish a program of incentive pay for licensed teachers, school psychologists, school librarians, school counselors; and administrators employed at the school level which are designed to attract and retain those employees. The program of incentive pay must specify the type of financial incentives offered and the Interim Finance Committee must approve the recommended incentives. Financial incentives must not be more than \$3,500 per year. This budget also contains the grandfather provisions of the 1/5th retirement credit purchase program (previously NRS 391.165). Personnel participating in the 1/5th purchase program in fiscal year 2007 could elect to continue until they had received five 1/5th credit purchases at which time they would be eligible to participate in the incentive program mentioned above. Statutory Authority NRS Chapter 391.166; AB1 23rd Special Session.

BASE

This request continues funding for the purchase of retirement credit and incentives for licensed education personnel.

PROGRAM DESCRIPTION

This budget account is designed to facilitate accounting for the Department of Education's positions, which are funded by multiple sources. Previously, employees were required to fill out multiple timesheets per cycle after the implementation of the Integrated Financial System (IFS). While there are multiple workarounds for this issue, it was determined that the creation of this account was the most efficient for the Department of Education. Funds are transferred from other budgets to cover the personnel and other related costs.

BASE

This request continues funding for nineteen positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

PROGRAM DESCRIPTION

This Education Support Services budget funds staff and operating expenditures associated with the shared costs or overhead, allocable to the various programs operated within the Department of Education. The budget account is funded by indirect costs assessments on the administrative expenditures of other Department of Education budget accounts. Two rates are calculated each year and are negotiated with the United States Department of Education. One rate is for the restricted programs that are not permitted to pay certain costs through an indirect cost system (most notably rent) and the other rate is for the other accounts that have no such restrictions. For the purposes of the 2012-2013 biennial budget submission, all budget account indirect costs and the revenue of this budget account have been estimated using the fiscal year 2011 rates. The restricted rate for fiscal year 2011 is 12.7% and the unrestricted rate is 21.3%. Statutory Authority: NRS 385.310 & 385.315.

NDE - PROFICIENCY TESTING

PROGRAM DESCRIPTION

The Proficiency Testing budget account funds several testing programs, mandated by the Legislature and administered by the Department of Education. Funding is included for norm referenced tests (NRTs) in grades 4, 7 and 10, currently the TerraNova III Survey Battery, provided and administered under a contract with CTB McGraw-Hill. The budget also includes necessary resources to oversee the High School Proficiency tests, which students are required to pass before receiving a standard Nevada High School Diploma. This program is currently accomplished through a contract with a national testing company to administer, score, and report the High School Proficiency tests. Funding is also included to support the testing of writing skills of all students in grades 5, 8, 11, & 12 (and adults). Passing this test in grade 11 or 12 is also a requisite for a High School diploma. Statutory Authority: NRS 385 and 389.

PROGRAM DESCRIPTION

The Coordinated School Health Education Program to Prevent the Spread of HIV/AIDS and other Sexually Transmitted Diseases (STDs) is a federally funded program designed to assist school districts to establish, strengthen, or expand HIV/AIDS and STD prevention education. The program is used to integrate HIV/AIDS prevention education into a coordinated school health education framework for Nevada's secondary middle school and high school students. Funds are used to provide K-12 staff development training; provide sustained implementation for the "School Health Profiles" Survey; and assist local districts with revisions to NRS 389.065 instruction that includes up-to-date information to school districts on the status of the spread of HIV/AIDS and other STDs. It also includes the collection of information on the status of HIV/AIDS education in school districts and monitoring health risk behaviors of adolescent youth in grades 9-12 through survey administration of the Centers for Disease Control's national, state, and local Youth Risk Behavior Survey. This program is federally funded by the U.S. Centers for Disease Control's Division of Adolescent and School Health: State and Local Education Agency Programs for Improving the Health and Educational Outcomes of Young People. Awarded Cooperative Agreement funding is in response to RFA-DP08-801 application for a five year CDC solicitation (03/01/2008) which is renewed annually by the following identifier, 1U87DP001227-01.

The Discretionary Grants - Restricted account includes the following federal grants: (1) Homeless Children Project; (2) Robert C. Byrd Scholarship Program; (3) Refugee School Impact Grant; (4) 21st Century Community Learning Centers; (5) Advance Placement Fee Payment; and (6) English Language Acquisition. Programs 1, 2, 3, & 5 are part of the No Child Left Behind (NCLB) legislation of 2001. The programs in this budget are subject to the restricted indirect cost rate approved by the U.S. Department of Education. There is a small General Fund appropriation to this budget account to cover the Byrd Scholarship administrative costs. These funds were previously accounted for in budget account 2699 but were moved to this budget account to more properly align with the aid payments. These grant budgets have been adjusted to the most current projected award information available for fiscal years 2012 and 2013 based on information available for fiscal year 2011 and the knowledge of the program managers regarding the status of the federal funding.

PROGRAM DESCRIPTION

This budget account provides federal funds to assist state and local educational agencies in improving elementary and secondary education in areas such as programs to assist in reducing the drop-out rate; increasing student achievement including emphasis in reading, mathematics and science; and the acquisition of instructional materials, training, and professional development. Three of the programs in the No Child Left Behind (NCLB) federal legislation include: Educational Technology Grants; Teacher and Principal Training and Recruiting Grants; and State Assessments and Related Activities. This account includes funding available to the department to administer the programs and the funding to be provided to school districts to implement the objectives of the programs.

NDE - STUDENT INCENTIVE GRANTS

101-2606

PROGRAM DESCRIPTION

The Nevada Student Incentive Grant (NSIG) Program assists states in providing grants to eligible students who attend post-secondary schools and have substantial financial need. To qualify, a student must be enrolled at least half-time in an eligible undergraduate or graduate program in an approved Nevada post-secondary institution. The maximum award is \$5,000. The Nevada Department of Education (NDE) approves each award. Nevada receives an annual Leveraging Educational Assistance Partnership (LEAP) and Special Leveraging Educational Assistance Partnership (SLEAP) formula grant from the US Department of Education based on the state's eligible post-secondary education enrollments relative to the total number of such students in all states. The federal LEAP allotment must be matched by funds appropriated by the state, and this match must represent an increase in the state-appropriated grant and work-study expenditure over the amount spent during an established base year. The state match and administrative funds are provided through General Fund appropriations. Federal funds may only be used for disbursement of grants. Authority: Higher Education Act of 1965, Title IV, Part A.

NDE - CAREER AND TECHNICAL EDUCATION

101-2676

PROGRAM DESCRIPTION

The Department of Education administers occupational education programs that meet the requirements of the Nevada State Plan for Career and Technical Education (CTE). The plan is based on the needs of students within the state and serves as the application for the Federal Carl D. Perkins Vocational and Technical Education Act funds. The primary mission of the federal program is to improve occupational education programs, focusing on the improvement and development of programs meeting the state criteria that defines high-wage, high-skill programs. Revenue received through the Carl D. Perkins Basic Grants to States has funding set-a-sides including 5% or \$250,000, whichever is greater, for state administration; 10% for statewide leadership; and 85% for basic grant aid to school districts and community colleges. Federal funds administration must be matched by state funds. In addition, the maintenance of effort provision requires the state to maintain funding at least at prior year levels. Authority: NRS 388.340(2a), 388.360(3) and the Carl D. Perkins Vocational and Technical Education Act of 1998, as amended.

NDE - CONTINUING EDUCATION

101-2680

PROGRAM DESCRIPTION

This Continuing Education account is funded through the federal Adult Education and Family Literacy Act. The purpose of the act is to provide adult basic education and English as a Second Language (ABE/ESL) services in order to assist adults to become literate and obtain the knowledge and skills necessary for employment and self sufficiency; to assist adults in the completion of secondary school education; and to assist adults who are parents to obtain the educational skills necessary to become full partners in the education of their children. Funds are granted to eligible educational and community-based organizations to carry out the purpose of the act. Nevada continues to experience increasing needs for adult education, especially English literacy for the Hispanic and Asian populations in the country. The state has the second highest percentage of 18-24 year olds without high school diplomas or equivalent degrees in the nation. The demand for adult education services escalates as the population increases and workplace expectations demand higher levels of literacy. Authority: P.L. 105-220. Workforce Investment Act, Title II, Adult Education and Family Literacy Act; NRS 387.1233

NDE - NUTRITION EDUCATION PROGRAMS

101-2691

PROGRAM DESCRIPTION

The National School Lunch Act of 1946 and the Child Nutrition Act of 1966 allot federal funds to Nevada for the nutrition programs. The federal allotment for each program sponsor is based on a formula that may consider meal costs or budgets, the number of individuals served and the income level of those individuals. Sponsors are reimbursed monthly at a unit cost for each meal/milk served. The state funding is used to meet the state maintenance of effort (MOE) and match requirements. The required state match is included in the Distributive School Account, budget account 2610. This budget also provides the funding needed to administer these programs, including processing payments, monitoring services provided by the program sponsors, and providing technical assistance and professional development to the sponsors. Authority: P.L. 79-396; CFDA #'s: 10.550, Food Distribution; 10.553, School Breakfast Program; 10.555, National School Lunch Program; 10.556, Special Milk Program for Children; 10.558, Child and Adult Care Food Program; 10.559, Summer Food Service Program for Children; 10.560, State Administrative Expenses for Child Nutrition.

PROGRAM DESCRIPTION

Also included in this budget is the NRS 395 Program, which provides funding for the education of special students whose individualized educational programs cannot be met in their home school districts. Authority: PL106-448, NRS 388.440-520.

NSHE - SYSTEM ADMINISTRATION

101-2986

PROGRAM DESCRIPTION

The Board of Regents is established by the Nevada Constitution and statutorily endowed with the powers to provide direction and governance for all activities of the Nevada System of Higher Education (NSHE). The Board of Regents, in conjunction with the employees of the Chancellor's Office, provides direction and coordination for the various activities of the campuses and units of the NSHE. The Chancellor's Office includes the functional areas of academic affairs, budget and financial planning/programming and legal counsel. The universities provide a wide range of undergraduate and graduate instructional programs, including professional and doctoral work in selected fields; maintain library, studio and laboratory services, and resources for research; provide cultural opportunities for students and the general public; and also provide public service and continuing education. The community colleges provide post-secondary educational opportunities that are regionally and financially accessible. This includes teaching occupational skills required by business and industry; upgrading students' skills necessary to compete successfully in college courses; providing community service programs and assistance to students in planning educational goals. The mission of the state college is to meet the needs of students who are interested in bachelor's degrees in much-needed fields such as nursing and education, as well as in other disciplines in the arts and sciences. Course work is fully transferable to both the first tier (universities) and the third tier (community colleges) in the NSHE. Appropriations in all NSHE budget accounts are recommended in conjunction with Board of Regents approved adjustments for non-appropriation sources of revenue, including tuition adjustments. For campus budgets, the non-appropriation funding sources are primarily from student registration fees and non-resident tuition. However, other available sources of revenue include operating capital investment and certain federal funds. Constitutional authority: Article 11, Section 4 and NRS 396.

NSHE - STATE-FUNDED PERKINS LOAN

101-2993

PROGRAM DESCRIPTION

Historically, this specialty area provided matching funds for the Nevada System of Higher Education (NSHE) to participate in the National Direct Student Loan Program (NDSL) and administer loans granted to undergraduate and graduate students through revolving loan accounts at each campus. Until recently, the federal government eliminated NDSL funding. This program continues the need-based student loan program on a state-funded basis and the name change reflects the state specific commitment to students at post-secondary educational institutions. Constitutional authority: Article 11, Section 4 and NRS 396.

BASE

The base budget continues funding for associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

DCA - NEVADA HUMANITIES

101-2894

PROGRAM DESCRIPTION

Nevada Humanities is a non-profit, nationally-recognized program that works in partnership with local communities to develop and fund humanities activities and educational programs. Established under provisions contained in the federal legislation creating the National Endowment for the Humanities, Nevada Humanities creates an environment conducive to economic development, heritage tourism, and quality education by fostering humanities activities such as lectures, exhibits, publications, book festivals, historic performances, teacher institutes, documentary films, interpreted art presentations, and a humanities grants program. After four consecutive biennia of legislative provision of one-shot funding to support a southern Nevada office, the 2005 Legislature converted the one-shot funding request to an on-going appropriation. State funds for this program are currently passed through the Nevada Humanities budget, as aid to non-profit organizations, but are being transferred to the Nevada Arts Council, budget account 2979.

AGRI - GRADE & CERTIFICATION OF AG PRODUCTS

101-4541

PROGRAM DESCRIPTION

The Grade and Certification Account supports the registration, inspection, and certification activities for a variety of grower and USDA programs. Seed fields, primarily garlic and alfalfa, are inspected and certified to meet specific standards. Potatoes and onions are inspected and assigned a USDA grade at the shipping point. Passengers, cargo, and other material arriving on foreign flights are inspected under a contract with the USDA. Hay and other agricultural products are inspected to enable shipment to foreign countries. The weed-free forage certification program is also in this account. Shell eggs are inspected and graded according to USDA standards. The Nevada Certified Organic program is also located in this account. Statutory Authority: NRS 587.015 - 123 and NRS 583.

PROGRAM DESCRIPTION

The Agricultural Registration and Enforcement account supports the registration, inspection sampling and laboratory analysis of antifreezes, fertilizers, and pesticide products offered for sale. Under an Environmental Protection Agency (EPA) cooperative enforcement agreement, the program also provides pesticide product inspection at the retail level and monitors the application of pesticides. Also enforced under the agreement are the EPA groundwater protection, worker protection, and endangered species protection programs. Another grant is received from the EPA for the certification and training of restricted use pesticide applicators. Statutory Authority: NRS 586, 588, and 590.

NRS 567.010-090 authorizes the State Predatory Animal and Rodent Committee (PARC) to cooperate with the United States Department of Agriculture (USDA) for the control of predatory animals, crop-destroying birds, and rodents within the State of Nevada. PARC (state) and the USDA (federal) collectively form the Nevada Wildlife Services Program (WS). The Nevada WS Program also works cooperatively with the Nevada Department of Wildlife (NDOW) to conduct predation damage management projects to protect Nevada's natural resources such as mule deer, sage grouse, and bighorn sheep.

Statutory Authority: The Animal Damage Control Act of March 2, 1931, as amended (46 Stat. 1486; 7 U.S.C. 426-426b# and the Rural Development, Agriculture, and Related Agencies Appropriation Act, 1988 #P.L. 100-202# authorizes the USDA's Wildlife Services #WS) program to form cooperative programs with state agencies.

B&I - CAPTIVE INSURERS

101-3818

PROGRAM DESCRIPTION

A captive insurer is an insurance company established and owned by a parent firm in order to insure its loss exposures while reducing premium costs, providing easier access to a reinsurer, and perhaps easing tax burdens. A risk retention group (RRG) and risk purchasing group (RPG) are similar insurers, owned by their members or purchase insurance as a group, respectively by virtue of federal law. The captive insurer section's budget was established by the 1999 Legislative Session. All fees and assessments received by the division pursuant to NRS 694C must be credited to the account. In addition, 25% of the premium tax imposed under NRS 694C.450 must be deposited for the regulation and supervision of captive insurers. Of that 25%, 2% is paid to the Commission on Economic Development for promotional services. At the end of each fiscal year, that portion of the balance in the account that exceeds \$500,000 must be transferred to the state General Fund. Statutory Authority: NRS 694C and 695E.

PROGRAM DESCRIPTION

This budget consists of the Administrator's Office, the Workers' Compensation Section (WCS), the Administrative Services Unit and the Legal Section. The WCS regulates Nevada's workers' compensation programs to ensure that injured workers receive timely and accurate delivery of wage loss compensation, physical impairment compensation, medical compensation, and rehabilitation benefits through a comprehensive program of training, auditing, investigation, and enforcement. The WCS is also responsible for the regulation of self-insured employers, associations of public and private self-insured employers, private workers' compensation carriers, third party administrators, managed care organizations, and health care providers. The WCS Compliance Unit enforces the statutory requirement that all employers with one or more employees maintain a policy of workers' compensation. In a non-regulatory capacity WCS oversees the administration of uninsured claims. The Administrative Services Unit provides support services and technical assistance to the division and its sections in the areas of accounting, budgeting, accounts payable, purchasing, inventory, payroll, personnel, and information systems.

B&I - WEATHERIZATION

101-4865

PROGRAM DESCRIPTION

The Weatherization Program works in combination with the federal Department of Energy's (DOE) Weatherization Grant Program and the state's Universal Energy Charge (tax) to create expanded opportunities to assist low income families improving energy efficiency for their homes and thereby minimizing utility costs. Most funds are expended through subcontractors who are carefully trained and monitored in their efforts to test for weather-related air and water leakages in homes and multifamily projects of low income families. Once a dwelling unit is determined to need specific assistance, retrofitting of certain types of insulation, windows, doors, heaters, or water heaters are procured and installed. The staff conduct quality control audits, training programs, and assist in outreach efforts. Statutory authority: NRS 702.250.

B&I - MANUFACTURED HOUSING

271-3814

PROGRAM DESCRIPTION

The Manufactured Housing Division's principal responsibility is to ensure that manufactured homes, mobile homes, travel trailers, commercial coaches, manufactured buildings and modular components are constructed and installed in a manner which provides reasonable safety and protection to owners and consumers (NRS 489). The division licenses the various professionals including manufacturers, dealers, responsible managing employees, salespersons, general servicemen, and specialty servicemen (NRS 489). The division investigates consumer complaints against licensees on service and products, including manufacturer home warranty issues. The division maintains mobile and manufactured home title records, issues certificates of ownership, and conversions to real property and property liens (NRS 489).

Revenue for this budget is generated by user fees including licensing fees to industry professionals, fees charged for issuance of certificates of ownership, liens, conversions to real property and title searches. The division also receives revenues from the installation and safety seals for inspections of mobile and manufactured homes, commercial coaches, and factory-built housing, manufacturing, construction and/or modification plan review and non-grant federal (H.U.D) funds.

PROGRAM DESCRIPTION

The Landlord/Tenant program handles complaints and disputes between the landlord/owner and the tenants who rent space but own their own home. Complaints range from improper eviction notices, violation of park rules and regulations, unequal enforcement of park rules and lease agreements. The program is supported by annual fees paid by the park owners per NRS 118B.185. Fees are collected based on the number of spaces in the park at \$5.00 per space less spaces with park-owned homes.
