PROGRAM DESCRIPTION

The powers and duties of the Weights, Measures & Standards program are mandated in NRS Chapters 581, 582, and 590. The state sealer of Weights, Measures & Standards, the department director, is directed to license, test, and deem correct, all commercially used weighing and measuring devices. The bureau obtains samples of motor fuels and delivers them to the petroleum chemists for analysis. If any violations are noted in the device inspections, packaging, scanners, or motor fuel, the inspectors take regulatory action to obtain compliance. The division also maintains the metrology lab which houses the state standards for mass, length, and volume. The metrologist certifies the field standards used by Weights, Measures & Standards inspectors and registered service agents. Public weigh masters certify weight information for a fee and require a license as specified by the division. The division inspects their scales and audits their weigh tickets for compliance per NRS Chapter 582. The inspection of the advertising and labeling of motor fuel dispensers, storage tanks, and quality of the fuels is covered in the petroleum act as cited in NRS Chapter 590.

The responsibility of this division also includes the inspection of packaged goods to determine whether the stated amounts, sizes, pricing, etc. are correct.

Additionally, state law mandates the adoption of standards relating to fuel used in internal combustion engines and to test fuel against acceptable standards to ensure clean burning, high quality motor fuel. In order to enforce these standards, fuel sampling is conducted throughout the state. Inspectors then investigate any possible violations. Statutory Authority: NRS 590.010 through NRS 590.150.

PROGRAM DESCRIPTION

State law mandates that the Nevada Board of Agriculture adopt standards relating to fuel used in internal combustion engines and to test fuel against acceptable standards to ensure clean burning, high quality motor fuel. DPS - EVIDENCE VAULT

101-4701

PROGRAM DESCRIPTION

The Department of Public Safety (DPS) has a dedicated Evidence Program to support all of its divisions. As a law enforcement operation, sworn officers regularly seize property, money, and contraband from individuals for evidentiary, safekeeping or destruction purposes. With the addition of new personnel and programs, evidence processing has significantly increased. As such, the department needs to reorganize and streamline the statewide evidence program to reflect a more equitable division of labor, personnel, and funding. This move will provide budget integrity and consistency with cost allocations to the divisions, and consistency with statewide standardized procedures and administration of the program.

DPS - HIGHWAY SAFETY GRANTS ACCOUNT

201-4721

PROGRAM DESCRIPTION

The Department of Public Safety, Highway Patrol Division receives several federal grants, which are administered through this budget account. The granting agency is the U. S. Department of Transportation, Federal Motor Carrier Safety Administration (FMCSA), whose focus is accident, fatality, and injury reduction of commercial motor vehicle (CMV) related crashes. These reductions are accomplished through consistent, uniform, and effective CMV safety programs. The federal grants include the Motor Carrier Safety Assistance Program (MCSAP) and the New Entrant Safety Audit Program (New Entrant). The MCSAP grant is committed to a reduction in the frequency and severity of CMV related crashes. Federal funds are used for MCSAP eligible activities designed to promote safety on Nevada highways by supporting enforcement of CMV regulations, CMV inspections, and CMV/non-CMV traffic enforcement. This grant requires a 20% soft match which is comprised of trooper time spent on MCSAP eligible activities. The New Entrant program is a continuing program to conduct safety audits of new CMV operators based in southern Nevada. This grant funds 100% of these activities which are supported by two positions.

DPS - STATE EMERGENCY RESPONSE COMMISSION

201-4729

PROGRAM DESCRIPTION

The mission of the State Emergency Response Commission (SERC) is to protect the citizens of the State of Nevada against the negative effects of hazardous materials. The SERC is the executive agency for Nevada's compliance with the Federal Superfund Amendment Reauthorization Act (SARA), Title III, also known as the Emergency Planning and Community Right-to-Know Act (EPCRA). As mandated by this Act, the SERC is responsible for collecting information from fixed facilities regarding the use and storage of hazardous materials. The information is provided to the public and first responders for both planning and reference purposes through a combined database coordinated with the State Fire Marshal's Office. Pursuant to NRS, fees are collected on the reports submitted. Funds support the Local Emergency Planning Committees (LEPCs) and state agencies with equipment, training and planning activities needed to prevent and respond to hazardous material incidents. Statutory Authority: 42 U.S.C. 11001; NRS 459.735 through NRS 459.744.

PROGRAM DESCRIPTION

Established by the 1985 Legislature, the Central Repository for Nevada Records of Criminal History is administered by the Department of Public Safety, Records and Technology Division, Records Bureau under the authority and provisions of NRS 179A and 179D. The Records Bureau administers the Nevada Criminal Justice Information System (NCJIS) and is the state's clearinghouse for criminal history record information, crime statistics, and information and activities that support a wide variety of public safety interests. In addition, it is the portal through which law enforcement statewide accesses criminal history record information of the Federal Bureau of Investigation (FBI) and other national and state criminal history databases. The bureau is a member of the Western Identification Network, a regional consortium of eight western states that share fingerprint images and criminal history record information, and is a participant in the FBI's Interstate Identification Index and in the National Crime Prevention and Privacy Compact for the release of criminal history record information for non-criminal justice purposes. The bureau is further designated as the Chief Law Enforcement Official for the purposes of administering the Brady Handgun Violence Prevention Act of 1993.

The repository includes the Uniform Crime Reporting program, the Point-of-Sale firearms program (Brady), the Nevada Domestic Violence Protection Order Registry, the Nevada Sex Offender Registry, the Civil Name Check Program, and the Program Development and Compliance Unit.

PROGRAM DESCRIPTION

The 2007 Legislature formally codified the establishment of the Records and Technology Division within the Department of Public Safety with the passage of Senate Bill 38. The Technology Bureau provides to the department and statewide criminal justice agencies 24-hours per day, 7 days per week and 365 days a year technical support, computer resources, application development, connectivity, and security guidance. The bureau's forty-nine employees support over 15,000 users statewide. There are over 1,200 Department of Public Safety network (internal) users and over 13,500 external users. The external customers access a variety of applications through the Justice Link (Jlink) message switch. In addition, the bureau ensures all users are in compliance with the Federal Bureau of Investigation's Criminal Justice Information System (CJIS) security policies and with the State of Nevada Criminal Justice Information System (NCJIS) security policies.

PROGRAM DESCRIPTION

The Department of Public Safety (DPS), Office of Criminal Justice Assistance (OCJA) obtains, administers, and sub-grants to state and local government agencies grant funds from the U.S. Department of Justice for programs that address illegal drug use, trafficking, violent crime, and improvement of the functioning of the criminal justice system. The objective is to coordinate education, prevention, treatment, and law enforcement to achieve a comprehensive solution to the problems of drug abuse and violent crime. In 1987, the Office of Criminal Justice Assistance was designated by the Governor as the SAA for Nevada. In November of 2000, the Office of Criminal Justice Assistance was designated by the Governor as the state coordinator for the 1033 Department of Defense Excess Property Program, and the state point of contact for the 1122 General Services Administration (GSA) Purchasing Program. DPS - JUSTICE ASSISTANCE ACT

101-4708

PROGRAM DESCRIPTION

The Department of Public Safety, Justice Assistance Act budget is a pass-through account for several grants received from the U.S. Department of Justice. Grant funds are distributed to state and local government agencies which contribute to the efforts of reducing and preventing crime, violence and drug abuse, and improving the functioning of the criminal justice system while maintaining the integrity of the federal funds. Administrative funds are passed through to the Office of Criminal Justice Assistance, budget account 4736. The Omnibus Crime Control and Safe Streets Act determines each state's grant amount by formula. Each grant requires matching funds, set-asides, or percentages to locals and contains specific guidelines for the use of funds. Created by the Anti-Drug Abuse Act of 1986, Section 1308 of the Act states that the chief executive of each state shall designate a State Administrative Agency. In 1987 the Office of Criminal Justice Assistance was designated by the Governor as the State Administrative Agency (SAA) for Nevada. In November of 2000, the Office of Criminal Justice Assistance was designated by the Governor as the state point of contact for the 1033 Dept. of Defense Excess Property Program, and the State Coordinator for the 1122 General Services Administration (GSA) Purchasing Program.

BASE

This request continues funding to pass through federal funding to various state and local law enforcement agencies.

CRC - COLORADO RIVER COMMISSION

296-4490

PROGRAM DESCRIPTION

The Colorado River Commission is empowered to acquire, manage, and protect all of Nevada's water and hydropower resources from the Colorado River. In addition, it is to provide electric power resources to certain customers from any available source for needs over and above the hydropower allocations. These resources are primarily centered in and benefit southern Nevada. In addition, the commission has acquired certain lands in the Laughlin area to develop and dispose of in accordance with state and federal laws and regulations. The Colorado River Commission Fund acts as the general fund for all commission activities. All personnel costs for commission staff and all of the basic activities and functions performed in fulfilling the commission's legislative mandate are recorded in this account. The commission is entirely funded by its customers and receives no state or federal funds in carrying out its activities. The Colorado River Basin states are in constant contact regarding the issues of the lower basin; the bulk of commission travel occurs in California and Arizona. In addition, the commission has extensive involvement with a number of agencies of the federal government, including the Bureau of Reclamation, Western Area Power Administration, U.S. Fish and Wildlife Service, Environmental Protection Agency, Bureau of Land Management, and others. Statutory Authority: NRS 538.

PROGRAM DESCRIPTION

The Research and Development Fund provides for the costs of engineering studies, analyses, negotiations, and other efforts in protecting the interests of the state in the development of any of the resources under the control of the commission. This fund is now used primarily for specific resource programs of the commission, approved and funded on an individual basis through contractual agreements with commission customers. In addition, some small projects may be funded from this account as approved by the director. The only current use of the fund is as a pass-through account for the costs related to the Lower Colorado River Multi-Species Conservation Program (LCRMSCP). Funding is provided to the commission by its water and power contractors in accordance with the Multi-Species funding contracts. Collections under the contracts are used to fund the development of the LCRMSCP plan. Statutory Authority: NRS 538.191.

DCNR - FOREST FIRE SUPPRESSION

101-4196

PROGRAM DESCRIPTION

The Forest Fire Suppression Account funds expenses necessary to protect life, property and natural resources from fire, flood and other natural or human caused emergencies. The program is funded with a combination of General Fund, reimbursement paid to Nevada Division of Forestry (NDF) for firefighting efforts made on behalf of others, and Federal Emergency Management Agency (FEMA) Fire Management Assistance Grants and subgrants. The agency turns to the Interim Finance Contingency Fund and the Disaster Relief Fund when funds are insufficient to meet the state's obligations each year. Although costs have steadily increased over the last ten years, they are a fraction of what the state would be responsible for if it were to rely solely on federal and local government cooperators to provide these services. (NRS 472)

PROGRAM DESCRIPTION

The Nevada Nursery Program, under the oversight of the Nevada Division of Forestry Natural Resource Program, was first established in 1957 to provide technical assistance and conservation plant materials - tree seedlings, shrubs, forbs and seed - to meet the conservation needs of Nevada's private landowners and public land management agencies. The nurseries also offer custom growing services for conservation plants native to or adapted to the Mojave Desert, Great Basin Desert and Sierra Nevada. They produce low-cost native or adapted plant species, acclimated to Nevada's environmental conditions, for conservation purposes including windbreaks, greenstrips, stream bank stabilization, wetland and riparian restoration, mine reclamation, reforestation, wildlife habitat enhancement and rehabilitation of wildfire damaged lands or other disturbed sites.

The Nevada Nursery Program is comprised of two nursery facilities, one in Washoe Valley and one in the Las Vegas Valley. The program operates statewide to provide technical assistance and conservation plant materials that meet the conservation needs of Nevada's private landowners and public land management agencies. The Nevada Seedbank was established in 1995 and provides seed, equipment and other materials to rehabilitate wildland fire and fire suppression related damages, and assists private landowners and public agencies with conservation treatments on their lands to reduce soil erosion, increase plant diversity, improve wildlife habitat and reduce the threat of wildland fire. The Nevada Seedbank facility is co-located with the Nursery in Washoe Valley. The Nursery and Seedbank programs are rooted in the agencies overall mission and are an integral part of all programs under both the fire and resources sections of the Division of Forestry. Both are enterprise accounts that operate on the sale of conservation plant materials. (NRS 472, 527 & 528)

PROGRAM DESCRIPTION

The Division of State Parks' mission is to acquire, plan, develop, interpret, operate, and maintain a system of parks and recreational areas and to preserve areas of scenic, historic and scientific significance for the use and enjoyment of residents and visitors. Major programs include: planning, development, administration, protection, operation, maintenance, resource management and interpretation of cultural and natural resources. The division's headquarters is located in Carson City with regional offices in Fallon and Las Vegas. The division is comprised of twenty-five units located throughout the state. In addition, the division administers the Land & Water Conservation Fund and the Recreation Trails Programs, which provide federal funding for the development of trails and outdoor recreation projects. Statutory Authority: NRS 353.205 (1)(b) and 353.210 (4). The philosophy of the Division of State Parks is connected to its mission and statutory authority. Each of the division's twenty-five units and individual programs are organized and operated to provide the citizens and visitors to the state the best possible experience while preserving the unique natural, cultural, and scientific areas administered by the division. To measure the effectiveness of programs, employees, and park facilities, the division distributes questionnaires to park visitors and carefully evaluates their responses on a monthly, quarterly, and annual basis. In the past, park visitors rated their experience as good to excellent over 94.6% of the time. By maintaining as many of the full time and seasonal staff as possible, the division will be able to maintain park facilities and serve the visiting public. The Division of State Parks has ninety-seven authorized permanent employees and 137 seasonal positions.

PROGRAM DESCRIPTION

This bureau is responsible for the Mining Regulatory Program which includes Reclamation. The bureau established a system which is responsive to both environmental and economic concerns associated with the development of Nevada's natural resources. The workload of the bureau is dependent, to a certain extent, upon rising and falling metal prices, which cause fluctuations in mining activity. Since 2000, metals prices have risen dramatically. A number of regulatory and procedural revisions were implemented in the past ten years to address bankruptcies and abandonments of mining operations due to low metal prices. Measures were taken to enhance the strength and security of the regulations, especially in the areas of mine closure and bonding. Nevada's mining regulatory programs address the design, construction, operation, closure and reclamation of mining and exploration operations. Principle objectives include protection of human health, ground and surface water resources, and completion of reclamation activities, which provide for a productive post-mining land use. Major program elements consist of permitting, inspection, compliance monitoring, enforcement, and plan and report review. This budget account is funded by fees. Statutory Authority: NRS 445A.300 through 445A.730 and NRS 519A.010 through 519A.280.

PROGRAM DESCRIPTION

The Bureau of Water Quality Planning (BWQP) is responsible for implementing programs to meet requirements of the Clean Water Act (CWA) and Nevada water quality statutes and regulations that protect and/or improve the chemical, physical and biological integrity of the waters of Nevada. BWQP staff: conduct water quality, bioassessment and physical habitat monitoring; develop and/or revise water quality standards for adoption by the State Environmental Commission; develop the impaired waters list; develop total maximum daily loads (TMDLs) and TMDL and/or watershed implementation plans to address water quality impairments; issue 401 certifications to ensure that proposed discharges meet applicable effluent limitations and water quality standards; assist in the development and review of 208 area-wide waste management plans; mitigate the adverse effects from nonpoint source pollution through implementation of water quality improvement and public education projects; promote intra and inter-agency program coordination; and provide technical assistance. The bureau also implements a laboratory certification program to ensure that water and soil samples collected to meet requirements of the Safe Drinking Water Act, CWA and the Resource Conservation and Recovery Act are analyzed according to EPA and state approved methods. This budget account is funded by federal grants and fees. Statutory Authority: NRS 445A.300 through 445A.730.

DCNR - DEP SAFE DRINKING WATER REGULATORY PROGRAM

101-3197

PROGRAM DESCRIPTION

The Bureau of Safe Drinking Water (BSDW) implements the Public Water System Supervision Program (PWSSP) authorized under the Federal Safe Drinking Water Act (SDWA) and maintains primacy for the State of Nevada. State implementation of the PWSSP ensures Nevada's public water systems comply with state and federal drinking water standards by enforcing the sampling and monitoring requirements for water quality and enforcing requirements for surface water treatment and corrosion control. The program assesses water sources (including identification of potential contaminant sources); conducts annual sanitary surveys; certifies the qualifications of public water system operators; and requires public notification when systems are out of compliance. The BSDW also reviews engineering plans for public water systems and the subdivision of land. Additionally, PWSSP provides training, information transfer, and regulatory update presentations at meetings of water industry associations. This budget account is funded by federal grants and fees. Statutory Authority: NRS 445A.800 through 445A.955.

TAHOE REGIONAL PLANNING AGENCY

101-4204

PROGRAM DESCRIPTION

Jointly created by the States of Nevada and California and the U.S. Congress, the Tahoe Regional Planning Agency's (TRPA) mission is to cooperatively lead the effort to preserve, restore, and enhance the unique natural and human environment of the Lake Tahoe region now and in the future. TRPA's vision is to have a lake and environment that is clean, healthy and sustainable for the community and future generations. Under the compact, Nevada pays one-third of the State of California/Nevada costs to support TRPA's operation. As a planning agency, TRPA has the power to exercise effective environmental controls and perform other essential functions over the water, land, air, wildlife and development of the Lake Tahoe region. Starting in 1997, with the Nevada and California Governors' Memorandum of Understanding and the Presidential forum, TRPA has led the cooperative efforts of funding the Environmental Improvement Program. Statutory Authority: NRS 277.190 - 277.220s.

ENHANCEMENT

E350 ENVIRONMENTAL POLICIES AND PROGRAMS

This request continues increased funding from the Department of Motor Vehicles Pollution Control account to support air quality threshold monitoring. This increase in funding from the DMV Pollution Control Account was approved by the 2009 Legislature as a one-time increase in the transfer from DMV to help close the two-thirds one-third funding gap that existed in the previous biennium. Given the continued issues with Nevada's economy, it appears that this additional funding will again be required to minimize the gap in the two-thirds one-third funding agreement between Nevada and California.

NDOT - BOND CONSTRUCTION

201-4663

PROGRAM DESCRIPTION

The Bond Construction account is required by the bond covenants to provide a separate accounting of expenditures relating to bond-funded construction projects. Bond proceeds will be directed to projects such as new roadway construction and reconstruction, safety improvements, and replacement or rehabilitation of bridges and interchanges. The Department of Transportation (NDOT) does not anticipate selling bonds during the 2011-2013 biennium. Revenue and expenditures in fiscal year 2010 are related to bonds sold in prior years. Reference budget account 4660 for NDOT's mission, program statement and performance indicators.

BASE

This request discontinues funding of the Bond Construction Program.

680-1368

PROGRAM DESCRIPTION

The Retired Employee Group Insurance (REGI) budget account provides a centralized collection mechanism for contributions made by each state entity for the benefit of all retired state employees. These contributions defray a portion of the individual insurance premiums for employees who retire from state government and elect to continue coverage in the state group insurance plan. The program is funded by payroll assessments to agency budgets and covers all state agencies, boards and commissions, the Judicial Branch, the Legislative Counsel Bureau, the Public Employees Retirement System, and the Nevada System of Higher Education. Statutory Authority: NRS 287.046.

BASE

Continues funding for group insurance premiums to be paid to the state group insurance plan, administered by the Public Employees' Benefits Program, on behalf of retired employees who elect to continue coverage in the state group insurance plan.
