E226 EFFICIENT AND RESPONSIVE STATE GOVERNMENT

This request will separate base year expenditures from all categories into a special use category for Bureau of Labor Statistics (BLS)program within budget account 4682. BLS Injuries, Illnesses, and Fatalities (IIF) program provides annual information on the rate and number of work related injuries, illnesses, and fatal injuries, and how these statistics vary by incident, industry, geography, occupation, and other characteristics. This information is used by companies, organizations, and government entities in Nevada and across the country to help track the rate of injuries, illnesses and fatalities in order to improve safety in the work place. To do so The Nevada BLS Unit completes 2 primary functions annually. The first is to conduct the Survey of Occupational Injuries and Illnesses (SOII) for the state. We survey is a highly confidential random sample of establishments that employ Nevadans in order to generate annual statistics on the rates and details of injuries and illnesses in the work place. The second point of order is to conduct the Census of Fatal Occupational Injuries (CFOI). As a census we are charged with the responsibility to maintain strict levels of confidentiality while researching and providing detailed information on any and every work related fatality that occurs in the state of Nevada each year.

	This Decision Unit will replace the agencies motor pool leased vehicles with agency owned vehicles. The cost compared to purchase is much higher based upon how long the agency usually keep cars. The variable cost per mile is high and can potentially be a budget buster depending on monthly usage. Every time a car needs any maintenance, including oil changes, the car MUST be taken to the state motor pool. This can delay the repair or maintenance causing us to be without the vehicle for additional time than might otherwise be the case. Car washes are also at a specified location nowhere near the office resulting in additional lost production time.

E729	**NEW EQUIPMENT**				
	This Decision Unit will replace the agencies motor pool leased vehicles with agency owned vehicles. The cost compared to purchase is much higher based upon how long the agency usually keep cars. The variable cost per mile is high and can potentially be a budget buster depending on monthly usage. Every time a car needs any maintenance, including oil changes, the car MUST be taken to the state motor pool. This can delay the repair or maintenance causing us to be without the vehicle for additional time than might otherwise be the case. Car washes are also at a specified location nowhere near the office resulting in additional lost production time.

Budget Account: 4716 DMV - SYSTEM MODERNIZATION

Item No	Description	Actual 2013-2014	Work Program 2014-2015	A01 Year 1 2015-2016	A01 Year 2 2016-2017
E550	**TECHNOLOGY INVESTMENT REQUEST**				
	The Department is requesting to modernize the current system to provide for improved customer service, reduce transaction processing time, increase speed-to-market of offered Department products, and reduce system backlog.				
	The Department requests the funds to replace the existing and aging Common Business Oriented Language (COBOL) mainframe application and PowerBuilder applications running on disparate platforms with an integrated application that runs on a consolidated platform. Our current system has deficiencies which make it difficult and time consuming to keep up with legislative mandates, stay current with new technologies, and meet the growing demand of a technology savvy public.				
	The modernized application would allow for a reduced multi-channel and multi-device application deployment.				
	In addition to the ability to provide improved service to our customers, the integrated system would be comprised of an integrated finance system, inventory control system, correspondence management system, customer relationship management system (with call routing, integrated help, fillable online forms, chat support), business analytics (including predictive analysis and forecasting, Key Performance Indicator [KPI] measurability, and Business Process Outsourcing [BPO]), and a case management system.				
	The final goal is to implement a modernized Information Technology (IT) platform that is easy to configure and maintain, and also provides the necessary automated tools to test, monitor, troubleshoot and, accurately manage the system in real-time. The modernized solution will provide enhanced security, disaster recovery, fail-over capability, and provide functionality that is easily enhanced to provide an enhanced customer service experience.

E551	**TECHNOLOGY INVESTMENT REQUEST**				
	The project will require 22 new State staff along with 78 additional staff, through means of MSA's and the awarded contracted vendor, for a total of 100 staff for successful implementation of System Modernization. The project will require DMV services Tech 4 (3 each), ITP 2 (2 each), ITP 3 (6 each), ITT 5 (4 each), ITT 6 (2 each), BPA 1 (1 each), and BPA 2 (4 each). The Department estimates the project to take approximately five years to complete. Without dedicated staff, the Department will be limited in reducing risks for the existing business continuity or concurrent System Modernization implementation.

E226 EFFICIENT AND RESPONSIVE STATE GOVERNMENT

This requests additional Public Education funding for the Department. DMV conducts roughly eight million transactions each year with Nevada's 1.7 million licensed drivers and vehicle owners. One of the agency's key goals is to encourage all eligible customers to use online and kiosk transactions. By educating the public about alternative services the agency can better keep up with growth and forestall the need for additional staff and facilities. In addition, the agency will continue to roll out new technologies and will require the ability to communicate with the public about these new services. Existing funding for a statewide public education campaign of this magnitude is insufficient.

E225	**EFFICIENT AND RESPONSIVE STATE GOVERNMENT**				
	We are requesting an in-house General counsel position be added to the executive staff due to the specialized nature of pension law, the complex nature of litigation involving the system, and the increase in documents requiring legal review the system has experienced over the last few years. It would be invaluable to have a legal counsel in-house who has the knowledge of PERS both in statute and practice (policy) to maneuver the legal issues in regards to litigation, public records, qualified domestic relations orders, and guardianships/powers of attorney.

E125	**SUSTAINABLE AND GROWING ECONOMY**				
	This increase allows for the Program Manager as well as all four Procurement Specialists to attend the Association of Procurement Technical Assistance (APTAC) conferences. APTAC hosts two conferences each year, one in Washington DC each Fall and a changing location for the Spring (this year is Denver, CO). In the past, PTAC only budgeted for one or two staff members to attend each conference. The conference provides essential job-related training for all PTAC staff members, direct interaction with federal agencies and national resource partners, as well as peer-to-peer learning among staff from other PTACs nationwide.
