This request is for a new Admin Assistant II in Carson City. At the direction of the Division Administrator, reduced staffing in 2010 was necessary in order to formulate a budget for FY 2012-2013, resulting in staff to only focus on basic essential functions. The result has been the inability to provide adequate support and service to industry and the public, delays in providing needed services, and unacceptable performance. The inability of current staff to be proactive on communicating and educating our constituents has resulted in less than desirable levels of customer service. The addition of an Administrative Assistant II is needed in order for the Division to provide efficient and effective service to industry and the public, and relieve existing staff to provide a higher level of service, performance and education. Now that the Division is significantly more fiscally sound, it is appropriate to add this position to better serve the citizens of Nevada.

E550 TECHNOLOGY INVESTMENT REQUEST

This request replaces legacy software systems used by the Division with a COTS solution. The replacement of existing software systems is necessary for the Division to insure timely and adequate support for the services that it provides to the citizens of Nevada. The antiquated systems, which are not supported by the EITS Division, include the systems for Licensing, Titling, Lot Rent Subsidy, Park Records, and certificate and insignia tracking. The current system that supports the permit, inspection and investigative functions was developed by Division staff and is inadequate, lacking functionality needed to effectively manage those programs. Failure of these unsupported systems put the Division and the State at risk of effectively supporting the Statutory and Regulation oversight required for the Division. The cost of E550 will be split across all of Manufactured Housing Division budget accounts (25% each).

E902	**TRANSFER BA 3824 TO BA 3813**				
	In an effort to better align the Division of Insurance's (DOI) mission to protect the rights of Nevada consumers in their experiences with the insurance industry and to ensure financial solvency of insurers licensed to operate in Nevada, and to effectively and efficiently manage the Division's budget; the DOI is proposing to transfer Budget Account 3824-Insurance Education and Research into Budget Account 3813-Insurance Regulation.

E550 **TECHNOLOGY INVESTMENT REQUEST**

This request replaces legacy software systems used by the Division with a COTS solution. The replacement of existing software systems is necessary for the Division to insure timely and adequate support for the services that it provides to the citizens of Nevada. The antiquated systems, which are not supported by the EITS Division, include the systems for Licensing, Titling, Lot Rent Subsidy, Park Records, and certificate and insignia tracking. The current system that supports the permit, inspection and investigative functions was developed by Division staff and is inadequate, lacking functionality needed to effectively manage those programs. Failure of these unsupported systems put the Division and the State at risk of effectively supporting the Statutory and Regulation oversight required for the Division. The cost of E550 will be split across all of Manufactured Housing Division budget accounts (25% each).

[See Attachment]

E550	**TECHNOLOGY INVESTMENT REQUEST**				
	This request replaces legacy software systems used by the Division with a COTS solution. The replacement of existing software systems is necessary for the Division to insure timely and adequate support for the services that it provides to the citizens of Nevada. The antiquated systems, which are not supported by the EITS Division, include the systems for Licensing, Titling, Lot Rent Subsidy, Park Records, and certificate and insignia tracking. The current system that supports the permit, inspection and investigative functions was developed by Division staff and is inadequate, lacking functionality needed to effectively manage those programs. Failure of these unsupported systems put the Division and the State at risk of effectively supporting the Statutory and Regulation oversight required for the Division. The cost of E550 will be split across all of Manufactured Housing Division budget accounts (25% each).

E550	**TECHNOLOGY INVESTMENT REQUEST**				
	This request replaces legacy software systems used by the Division with a COTS solution. The replacement of existing software systems is necessary for the Division to insure timely and adequate support for the services that it provides to the citizens of Nevada. The antiquated systems, which are not supported by the EITS Division, include the systems for Licensing, Titling, Lot Rent Subsidy, Park Records, and certificate and insignia tracking. The current system that supports the permit, inspection and investigative functions was developed by Division staff and is inadequate, lacking functionality needed to effectively manage those programs. Failure of these unsupported systems put the Division and the State at risk of effectively supporting the Statutory and Regulation oversight required for the Division. The cost of E550 will be split across all of Manufactured Housing Division budget accounts (25% each). [See Attachment]

E806	**UNCLASSIFIED POSITION SALARY INCREASES**				
	The PUCN proposes changes to the Unclassified Pay Bill to remedy internal inequities, to align salaries with comparable classified and/or unclassified positions in other state agencies, and to attract and retain a diverse, well-educated professional workforce who are technically prepared to meet the demands of the rapidly changing and increasingly complex utility industry; and capable of supporting the Commission goals.

E811	**UNCLASSIFIED POSITION CHANGES**				
	The PUCN proposes to add to the Unclassified Pay Bill a new position title of Sr. Financial Analyst; reclassify an existing Financial Analyst position to Sr. Financial Analyst; and increase the unclassified salary for Sr. Financial Analyst by 5% for supervisory duties. This request will remedy internal inequities, align salaries with comparable classified and/or unclassified positions in other state agencies, and to attract and retain a diverse, well-educated professional workforce who are technically prepared to meet the demands of the rapidly changing and increasingly complex utility industry; and capable of supporting the Commission goals.

E125	**SUSTAINABLE AND GROWING ECONOMY**				
	This request proposes an increase in the Chief Inspector and Inspector contract authority. The Chief Inspector and Inspectors are currently paid based on a pay structure that has been in place since 1996. Additionally, there are currently 20 inspectors under contract. Due to increasing professional and amateur events, this request includes increasing the number of inspectors to 32.

E126	**SUSTAINABLE AND GROWING ECONOMY**				
	This request proposes authority for Out of State travel. Each year, associations and agencies specific to Unarmed Combat hold conferences and seminars which would greatly benefit the Nevada Athletic Commission in staying informed and up to date in trends, training, drug testing and other information relative to Unarmed Combat.

E806	**UNCLASSIFIED POSITION SALARY INCREASES**				
	A review of the unclassified salaries of the Department of Business and Industry was conducted to determine if certain salaries should be raised as compared with other Business and Industry unclassified salaries. The salary of the Executive Director for the Athletic Commission is $97,901. The Athletic Commission brings in millions of dollars (over $5+ million in fiscal years (FY's) 12 and 13) to the State General Fund through the licensing and regulation of events such as boxing and mixed martial arts (MMA). The number of events continues to rise along with the responsibility for ensuring that boxing and MMA promoters, participants, and judges are adhering to the rules and regulations governing these events.				
	The salary of the Executive Director should be raised to a level of $107,465 in order to attract and maintain the most qualified candidates with experience and oversight of the Boxing and MMA industries.

E806	**UNCLASSIFIED POSITION SALARY INCREASES**				
	At the request of the Department Director, the agency is requesting an increase of the Natural Heritage Program Administrator pay from $81,584/year to $87,773/year (EE/ER pay rate). This request will change the pay by one tier level to a tier level 10. The Nevada Natural Heritage Program is a division that has a specific and distinctive mission within the department to provide scientific information on the conditions and locations of the state's at-risk plants and animals. This information is provided as a unique service to other state and federal agencies, as well as to the private business sector and the general public. This information streamlines mandated environmental reviews and is a proactive means of ensuring that species are not listed under the Endangered Species Act.

E237	**EFFICIENT AND RESPONSIVE STATE GOVERNMENT**				
	Pursuant to NRS 706.8841, the Taxicab Authority (TA) is required to issue a driver's permit to qualified persons who wish to be employed by taxicab certificate holders. Before issuing the permit, the person must submit a complete set of their fingerprints to the Criminal History Repository (CHR) through the TA's electronic fingerprint machine for a fingerprint based background check by the State and Federal Bureau of Investigation (FBI). This background check is to ascertain whether the applicant has a criminal record, and if so, the nature of such record for disqualifiers to permit.				
	The transaction requires the applicant to pay to the TA $51.25, of which effective FY 15 $40.00 of the fee are pass through funds to the CHR and FBI for a fingerprint based background check (Note: Adjustment for CHR fee increase is in Dec Unit M150; Base is calculated on FY 14 fee of $37.50 for a total of $48.75). The remaining $11.25 of the fee is for the support of the TA's fingerprinting program to pay expenses specific to the program, such as, but not limited to, fingerprinting supplies, equipment, and software license and/or maintenance of their agency owned fingerprinting machine. The authority for the TA to charge a fee for service resides in NRS 706.8825(4). [See Attachment]

E721	**NEW EQUIPMENT**				
	DIRECTOR'S OFFICE / DCNR SHARED:				
	VMware Host Server $32,800				
	Backup Server $7,150				
	New Storage $10,400				
	Warranty renewal on existing storage $7,200				
	VEEAM Backup Software $11,820				
	VEEAM Annual Maintenance $6,440				
	Costs are allocated among the applicable DCNR agencies based on percentage by agency of virtual server usage. The Sagebrush Ecosystem Team's related needs at an off-site location are addressed in E710. DCNR has had great success in internally coordinating and informally consolidating information technology efforts to achieve cost effectiveness and efficiency. DCNR's information technology professionals have determined that there is a critical need for improvements to the shared server environment within the department. The IT staff has consolidated six major department agencies down to 36 virtual servers and have those 36 running on five physical servers. However, four of those servers will be out of warranty by May 2015. Some are already out of warranty as much as eight years with warranties expired in 2009. This is due to the fact that during budget cuts there has been no information technology budget in the department for such items for more than six years. This request will purchase the needed shared server improvements centrally through the Director's Office with the cost allocated to the various agencies based on a detailed calculation of percentage of use. In addition, this request is needed to comply with the State's Disaster Recovery Policy. The current backup software will be six years old by session and is antiquated. A more virtual server oriented backup solution is essential to both restore entire servers within minutes, as well as individual data files. Data restoration currently is neither quick or efficient, and takes about one full day of down time per server to perform a full server restoration.

Item No	Description	Actual 2013-2014	Work Program 2014-2015	A01 Year 1 2015-2016	A01 Year 2 2016-2017
	This is the reclassification request that corresponds with DU#E900. The Special Advisor to the Director is currently a classified position that will become a second unclassified Deputy Director position for the Director's Office at the Fiscal Year 2014/2015 tier level.				
	This decision unit is also requesting a correcting increase in the unclassified salary of the existing Deputy Director (PCN002) to align it with the Deputy Directors of Wildlife and Agriculture; also to establish the second deputy at this same tier. The new Deputy Director position is requested in DU#E805.

E901	**TRANSFERS FROM BA4173**				
	Transfer Management Analyst 4 (PCN 7771) from Division of State Lands (B/A 4173). This position transfer request will place the funding for the Program Manager (Management Analyst 4) of the Sagebrush Ecosystem Technical Team in Budget Account 4150 (Director's Office), rather than in Budget Account 4173 (State Lands). The Technical Team is an inter-agency, multidisciplinary team with the four other member positions each funded separately in the budgets of Wildlife, Forestry, State Lands and Agriculture. The team is housed together off-site from any of the above departments or agencies. Coordination with the Team is handled by a deputy director aligned with BA 4150, who works together with all involved department directors on sagebrush ecosystem issues; therefore funding the Program Manager, along with the Technical Team's current operational funding in BA 4150, through this budget account is consistent and appropriate.

E350	**SAFE AND LIVABLE COMMUNITIES**				
	This decision unit requests an increase in the competitive grants program, established in Fiscal Year 2014/2015, from $40,000 to $75,000 each year. The success of this grant program has been proven with 17 of the 28 districts filing applications in Fiscal Year 2014 for ready-to-go projects in the sagebrush ecosystem. The need for funding for projects that can immediately occur on the ground is high, thereby indicating that an increase in this successful competitive grant program will provide immediate benefit to this critical ecosystem.

Item No	Description	Actual 2013-2014	Work Program 2014-2015	A01 Year 1 2015-2016	A01 Year 2 2016-2017
	This request funds an increase in grant allocations to Nevada's 28 conservation districts. The current grant amount is $3,500 per district. Approval of this enhancement will give each district an additional $500, for a total grant award of $4,000 per year for each district. In Fiscal Year 2014/2015 the grant per district was raised from $2,500 to $3,500. This Fiscal Year 2016/2017 request is an additional step toward eventually returning the grants to the $5,000 per district level that existed prior to the need for budget cuts.

E900	**TRANSFER ADVISORY BOARD FROM BA 4155 TO BA 3189**				
	This request recommends transferring Category 15 (Advisory Board Travel) from the Water Planning Capitalization Improvement Program, budget account 4155 to the State Revolving Loan Fund-Administration, budget account 3189. The bulk of the projects presented to the Board are State Revolving Loan Fund projects; consequently, the Board would be more appropriately funded through the State Revolving Loan Fund.

E226 EFFICIENT AND RESPONSIVE STATE GOVERNMENT

Funding is needed for the northern region manager and facility manager to conduct quarterly park inspections. Current funding only allows for an annual inspections to be completed. This request will allow the region manager and facility supervisor to travel to remote parks such as Berlin, Cave Lake, Ward Charcoal Ovens, Wild Horse and South Fork to conduct quarterly inspections.

An enhancement of travel funds is also needed for temporary reassignment of ranger staff for holiday weekend and special events for visitor protection. Many parks have intense periods of visitation that require additional staff to manage. As busy periods in the North coincide with slower periods in the South, movement of staff is more efficient than hiring additional seasonal staff.

See attached spreadsheet for cost breakdown.

E227 EFFICIENT AND RESPONSIVE STATE GOVERNMENT

This request provides matching funds to the Tahoe Transportation District (TTD) for the State of Nevada through State Parks to continue transit service to Nevada State Park facilities along State Route 28 between Incline Village and Sand Harbor. The majority of the operating funds are available through federal sources but TTD has no source for the required match, anticipated to be $85,000 per year for fiscal years 2016 and 2017.

The transit service has provided over 12,000 rides during the summer of 2012 and over 14,000 rides during the summer of 2013. This reduces the number of visitors walking in the travel lanes, reduces the number of rear-end collisions, reduces the number of illegal parking tickets and allows free movement of emergency vehicles and commerce vehicles traveling on SR 28.

The attachment is a letter from TTD to the State of Nevada requesting financial assistance for the biennium.

	Training Budget Request				
	Bi-annual Law Enforcement in-service-Enhancement to Training funds will provide for 2 consecutive Bi-annual Law Enforcement training sessions. Current training is one three day session in the north and one three-day session in the south. Additional training funds will permit 2 three-day session in the north and south to include additional training topics and to avoid removing all ranger staff for three days in order to complete the POST required training. Automotive Service Excellence Training- This training keeps equipment mechanics current on rapidly changing electronic and mechanical components. Currently unable to offer this training, results in expensive repairs at dealerships. Edu-Code- Training enhancement required for six planning and development staff to maintain annual ADA, fire code, UBC updates. These staff design State Park structures that require code compliance to minimize liability. Firearms Instruction- Additional training funds will permit annual cross training of State firearm instructors in order to maintain statewide training consistency for State Park and other state agencies that occasionally attend our fire arms training such as Secretary of State's investigative staff and the Fire Marshall's staff. Weed Control- Increased invasive weed control efforts necessitate increased training for eight staff on weed identification and application of proper herbicides at the proper rate.				
	Water Safety- This will allow three employees at Lahontan State Recreation Area to obtain and maintain water rescue training. This training has application after boating accidents and for interpretive canoe trips on the Carson River. Safety Training- Maintenance staff throughout the state work in hazardous situations such as in trenches, confined spaces, on ladders and scaffolds. Additional funding will ensure compliance with OSHA regulations as well as the selection of proper protective gear. Clerical Training for office staff.

E231	**EFFICIENT AND RESPONSIVE STATE GOVERNMENT**				
	This request is to add funding to allow the agency to hire contract employees throughout the year as needed to perform a variety of tasks including miscellaneous clerical,maintenance projects and extra park coverage for special events. In the northern region, the anticipated need is approximately 240 hours of additional help at a rate of $13.36/hour. This hourly rate is consistent with the rate of pay for a maintenance worker, administrative assistant or park technician. The actual cost, including the contract fees, would be $17.77/hour for a total of $4,264.80. Throughout the region there are numerous special events that take place outside of the "busy season" when seasonal help is not available. There are also many maintenance projects that arise that need additional un-skilled labor to complete but the skilled maintenance staff are the only option to complete the project. This reduces the overall efficiency in completing projects.

E813	**POSITION UPGRADES**				
	Reclassify 12 Maintenance Repair Specialists (Grade 31),a Facility Supervisor I (Grade 31)and a Facility Supervisor II (grade 33)to a new class to be determined by DHRM				
	Due to mandated reorganization, the maintenance positions within Nevada State Parks are no longer working within job class specifications. Positions are tasked with additional duties, additional certifications, and perform to a level of expertise that is beyond those of the typical maintenance position. State Park maintenance positions are required to maintain certifications such as a CDL required for equipment transport and water truck operation. In addition water operator certifications are required by NDEP as 19 of our 23 parks operate as small towns with independent water systems. Hiring qualified candidates has become increasingly difficult due to the skill level required at time of interview.

E711	**EQUIPMENT REPLACEMENT**				
	The State Land's Land Management System (LMS) was deployed in September of 2010. Typically these systems have approximately an 8-10 year life with regular maintenance. At the end of this biennium the system will be 7 years old. Enhancements have been identified to improve the functionality of the system in the following areas: accounting (tracking and invoicing late payments and invoicing by email).				
	Per Dave Miller at EITS - this is the recommended entry in the NEBS system for this request. Quote is attached in equipment schedule.

Section A1: Line Item Detail by GL

Budget Account: 4194 DCNR - FORESTRY - WILDLAND FIRE PROTECTION PRGM

Item No	Description	Actual 2013-2014	Work Program 2014-2015	A01 Year 1 2015-2016	A01 Year 2 2016-2017
B000	**BASE**				
	This request continues operating cost funding for the Nevada Division of Forestry (NDF) Wildland Fire Protection Program (WFPP)program.				
	PLEASE NOTE: This program was launched mid year in fiscal year 13-14 and was not fully operational until fiscal year 14-15. Therefore, base year records for the biennium were for only a partial year. In order to arrive at reasonable estimated costs NDF used the non-base (work program) year (fiscal year 14-15) as the base for continued operations of the program.

E230 EFFICIENT AND RESPONSIVE STATE GOVERNMENT

This request will re-allocate funding for NDF seasonal firefighters from federal funding to General Fund due to the elimination of the federal grant funding from the USFS currently supporting the positions. The division has previously been able to support these seasonal firefighters with funding from the federal government (USFS). The federal funding for these positions will no longer be available beyond the current biennium.

E235 EFFICIENT AND RESPONSIVE STATE GOVERNMENT

Item No	Description	Actual 2013-2014	Work Program 2014-2015	A01 Year 1 2015-2016	A01 Year 2 2016-2017
	This request is for training that is recurring in nature, but on an interval that does not occur frequently enough to be considered as part of the biennial budget process. Due to vacancies and turnover rates, it is not practicle to estimate the number of courses that may be required any given fiscal year. The dollar estimate would allow NDF the flexibility to provide required training up to that amount each fiscal year.

E350	**SAFE AND LIVABLE COMMUNITIES**				
	This request authorizes general fund revenue to replace revenue lost from counties that are, or have already, transitioned out of the division's "all-risk" fire protection services program. These revenues are provided to the division to hold NDF harmless (from a budget perspective) as the "all-risk" program phases out and the fire districts return to services provided by their respective home counties. The counties include Clark County, Elko County, Storey County, Eureka County and Carson City.

	This is a request to move two Conservation Crew Supervisor positions from Eastern Sierra Conservation Camp to the Air Operations program to work within the NDF Helitack section. Helitack refers to "helicopter-delivered fire resources", and is the system of managing and using helicopters and their crews to perform aerial firefighting and other firefighting duties, primarily initial attack on wildfires. Helitack crews are used to attack a wildfire and gain early control of it, especially when inaccessibility would make it difficult or impossible for ground crews to respond in the same amount of time.

E813	**POSITION UPGRADES** SAGEBRUSH ECOSYSTEM PROGRAM - MAJOR BUDGET INITIATIVE				
	Conservation Camp Crews are the front line of defense for the sage grouse ecosystem and species relative to its two biggest threats; wildfire and invasives. Due to the problems with recruitment and retention, NDF projects it will be down a minimum of 15 crews in SFY 15 and beyond, which must be addressed in the best interests of the sage grouse ecosystem and species. [See Attachment]

E900	**TRANSFERS**				
	This is a request to move two Conservation Crew Supervisor positions from Eastern Sierra Conservation Camp to the Air Operations program to work within the NDF Helitack section. Helitack refers to "helicopter-delivered fire resources", and is the system of managing and using helicopters and their crews to perform aerial firefighting and other firefighting duties, primarily initial attack on wildfires. Helitack crews are used to attack a wildfire and gain early control of it, especially when inaccessibility would make it difficult or impossible for ground crews to respond in the same amount of time.

E710	**EQUIPMENT REPLACEMENT**				
	Prior to the 2012-2013 biennium, all computer equipment for the Division of Museums and History (PC's, servers, printers, etc.) had been budgeted and purchased by the Department of Cultural Affairs. Upon the dissolution of the Department of Cultural Affairs the Division of Museums and History was merged into the newly created Department of Tourism and Cultural Affairs at which time the budgeting and purchasing of the division's computer equipment became the responsibility of the division and each of its agencies. Much of the equipment was replaced in the 2014 - 2015 biennium however the replacement of some equipment had been postponed. The equipment replacement that had been requested for and postponed in the 2014 - 2015 biennium has been requested for replacement in the 2016 - 2017 biennium.

E227 **EFFICIENT AND RESPONSIVE STATE GOVERNMENT**

Administrative Support Staffing

Two audits by the Division of Internal Audits in the last couple of years have shown deficiencies in the areas of contracting, and record keeping. The budget reorganization has increased demands on existing staff to maintain the accounting system. Two budget analysts, intended to assist administrators in forecasting, tracking, and preparation of budgets have been diverted to other accounting and fiscal tasks. The result is less customer service, increases in accounting errors, lapses in contracts, and fiscal waste as opportunities to trim costs or bring in federal revenues are missed.

This request would fund (2) Management Analyst 3s in Fiscal Services to address budget account monitoring, contract management, accounts payable, accounts receivable, cost accounting, and sub-grants. The salary costs for these positions are requested in the Director's Office budget 4460 and all other position costs are requested in the Operations budget 4461.

E225 EFFICIENT AND RESPONSIVE STATE GOVERNMENT

Mobile Services

The public increasingly accesses the services of the department via the internet. The Department's website is a treasure trove of information for the public and a key communications tool. Use of social media and other forms of internet communications are on the rise. The vast majority of hunters apply for big game tags online. The public is able to purchase hunting and fishing licenses and register their boats online. All of these services minimize the need for the public to visit or call NDOW offices. This helps keep operational costs down and provides efficient services for the public.

This request would provide resources to make our existing online resources more mobile friendly. People increasingly access the internet on mobile devices. Websites need to be configured to display properly on these devices. This request would fund efforts to convert NDOW's website, consumer site, and application hunt systems to mobile friendly interface.

E226 EFFICIENT AND RESPONSIVE STATE GOVERNMENT

The growth of headquarters personnel within the department has filled the existing facilities at Valley Road in Reno to capacity. Two entire Divisions have been housed separately in leased space for over a decade, inhibiting coordination and cooperation within headquarters.

Item No	Description	Actual 2013-2014	Work Program 2014-2015	A01 Year 1 2015-2016	A01 Year 2 2016-2017
	This request would fund a move of all headquarters personnel to a common location in leased office space. This would generate efficiencies and enhanced coordination and cooperation within the department, and allow adequate room for both headquarters and western region personnel, who would continue to occupy Valley Road. The request includes onetime moving costs as well as certain renovations to Valley Road to enhance it's utility as an NDOW regional office.

E227	**EFFICIENT AND RESPONSIVE STATE GOVERNMENT** Administrative Support Staffing				
	Two audits by the Division of Internal Audits in the last couple of years have shown deficiencies in the areas of contracting, and record keeping. The budget reorganization has increased demands on existing staff to maintain the accounting system. Two budget analysts, intended to assist administrators in forecasting, tracking, and preparation of budgets have been diverted to other accounting and fiscal tasks. The result is less customer service, increases in accounting errors, lapses in contracts, and fiscal waste as opportunities to trim costs or bring in federal revenues are missed.				
	This request would fund (2) Management Analyst 3s in Fiscal Services to address budget account monitoring, contract management, accounts payable, accounts receivable, cost accounting, and sub-grants.

E225 EFFICIENT AND RESPONSIVE STATE GOVERNMENT

Mobile Services

The public increasingly accesses the services of the department via the internet. The Department's website is a treasure trove of information for the public and a key communications tool. Use of social media and other forms of internet communications are on the rise. The vast majority of hunters apply for big game tags online. The public is able to purchase hunting and fishing licenses and register their boats online. All of these services minimize the need for the public to visit or call NDOW offices. This helps keep operational costs down and provides efficient services for the public.

Item No	Description	Actual 2013-2014	Work Program 2014-2015	A01 Year 1 2015-2016	A01 Year 2 2016-2017
	This request would provide resources to make our existing online resources more mobile friendly. People increasingly access the internet on mobile devices. Websites need to be configured to display properly on these devices. This request would fund efforts to convert NDOW's website, consumer site, and application hunt systems to mobile friendly interface

	Videography				
	A primary goal of the Conservation Education Division is public education and public outreach. Targeting our constituents and customers in the ever-changing media environment has created challenges. As traditional forms of media lose relevance, and are all but ignored by younger audiences, new methods to target younger, tech savvy and busier individuals are necessary.

E276	**EDUCATED AND HEALTHY CITIZENRY**				
	Spanish Translation and Outreach				
	Nevada ranks fifth in the nation for the number of Spanish speakers in its population. As a public agency, the Nevada Department of Wildlife (NDOW) serves those individuals seeking our services who speak Spanish. NDOW believes that many of its Spanish constituents are uninformed of wildlife laws and regulations and may not be able to understand our signage.				
	Funding is needed for translation services, outreach through media channels and signage throughout the state.				
	The agency seeks to translate certain press releases for distribution to Spanish language media. Also, a public outreach campaign is beneficial because the Spanish speaking community is often unaware of the basic need to purchase licenses in order to fish and the fact that regulations on fishing and other outdoor activities even exist.

E350 SAFE AND LIVABLE COMMUNITIES

Urban Wildlife Management

Many of Nevada's citizens and visitors live and recreate in the urban interface with wild lands. Thriving wildlife populations, economic and population growth, and environmental factors such as drought, all combine to increase conflicts between wildlife and the public. Urban bears in northwestern Nevada and urban coyotes in southern Nevada are an on-going concern for the public and the NDOW has limited resources to respond. That response is a combination of public outreach and education, informed personnel to triage calls, and field response by NDOW personnel when public safety is at risk.

This requests funds two proactive education and outreach campaigns, one focused on bears and the other on coyotes, and two seasonal positions to specifically handle urban wildlife calls during peak seasons. It also provides additional resources for urban bear management and funding for existing staff time spent on urban wildlife.

E711 EQUIPMENT REPLACEMENT

This request represents fiscal years 2016 and 2017 Conservation Education Division's replacement vehicle request.
To replace vehicles which are becoming costly to the division due to high mileage, age and the rough conditions of the Nevada backcountry.

E350 SAFE AND LIVABLE COMMUNITIES

Many of Nevada's citizens and visitors live and recreate in the urban interface with wild lands. Thriving wildlife populations, economic and population growth, and environmental factors such as drought, all combine to increase conflicts between wildlife and the public. Urban bears in northwestern Nevada and urban coyotes in southern Nevada are an on-going concern for the public and the NDOW has limited resources to respond. That response is a combination of public outreach and education, informed personnel to triage calls, and field response by NDOW personnel when public safety is at risk.

This requests funds two proactive education and outreach campaigns, one focused on bears and the other on coyotes, and two seasonal positions to specifically handle urban wildlife calls during peak seasons. It also provides additional resources for urban bear management and funding for existing staff time spent on urban wildlife.

E229	**EFFICIENT AND RESPONSIVE STATE GOVERNMENT**				
	Scientific Database				
	The department has a variety of science based data in a variety of forms from paper to spreadsheets to stand alone databases. The NDOW GIS shop uses this data, but has to convert much of it for their use. This data has value to NDOW personnel, but is difficult to compile and synthesize for analysis. Development of unified database structures would allow better access to this data. Designing web interfaces would allow NDOW field staff to remotely upload data to a database from laptops and tablet devices.				
	This request would allow the hiring of an IT consulting firm to assess the current status of NDOW scientific data, articulate data needs, and make recommendations for infrastructure and development of a unified scientific database, including cost estimates for development. This information would be used to seek approval of a Technology Investment Request in the following biennium (fiscal years 17-18)

E350	**SAFE AND LIVABLE COMMUNITIES**				
	Many of Nevada's citizens and visitors live and recreate in the urban interface with wild lands. Thriving wildlife populations, economic and population growth, and environmental factors such as drought, all combine to increase conflicts between wildlife and the public. Urban bears in northwestern Nevada and urban coyotes in southern Nevada are an on-going concern for the public and the NDOW has limited resources to respond. That response is a combination of public outreach and education, informed personnel to triage calls, and field response by NDOW personnel when public safety is at risk.				
	This requests funds two proactive education and outreach campaigns, one focused on bears and the other on coyotes, and two seasonal positions to specifically handle urban wildlife calls during peak seasons. It also provides additional resources for urban bear management and funding for existing staff time spent on urban wildlife.

E350	**SAFE AND LIVABLE COMMUNITIES**				
	Many of Nevada's citizens and visitors live and recreate in the urban interface with wild lands. Thriving wildlife populations, economic and population growth, and environmental factors such as drought, all combine to increase conflicts between wildlife and the public. Urban bears in northwestern Nevada and urban coyotes in southern Nevada are an on-going concern for the public and the NDOW has limited resources to respond. That response is a combination of public outreach and education, informed personnel to triage calls, and field response by NDOW personnel when public safety is at risk.				
	This requests funds two proactive education and outreach campaigns, one focused on bears and the other on coyotes, and two seasonal positions to specifically handle urban wildlife calls during peak seasons. It also provides additional resources for urban bear management and funding for existing staff time spent on urban wildlife.

E720	**NEW EQUIPMENT**				
	This new equipment request is for a Nucleic Acid Purification system for the Animal Disease Lab in Sparks. The automated DNA extraction performed by this system would free up technician time during times of high volume testing (arbo-viral testing during the summer months and T. fetus testing during the peak season December through March of each year). Technicians would be able to dedicate more time to 'intelligent', non-repetitive task such as microscopic and microbiological examinations in addition to expanding the required quality assurance system requirements.

M150 **ADJUSTMENTS TO BASE**

NDOT Equipment Division staff are responsible for maintaining the department's fleet on an ongoing basis and take a comprehensive approach to fleet management, including an analysis of fleet condition, utilization, and the feasibility of rebuilding versus replacing key mobile and fleet equipment units when pertinent criteria are met.

This strategy is anticipated to maximize budgeted funds, enabling the department to extend the useful life of existing equipment in a cost-effective manner.
[See Attachment]

E225	**EFFICIENT AND RESPONSIVE STATE GOVERNMENT**				
	The department is requesting budget authority to upgrade its existing fueling system to maintain system reliability for over 5,000 system users throughout the state. These fueling sites are currently utilized by state agencies, local governments, emergency responders, and law enforcement. During a state of emergency, it is crucial that Nevada state agencies are self-sufficient and do not need to rely on commercial fuel. This fueling system provides a multitude of benefits to users including: emergency preparedness, convenient locations, availability, economy, flexibility and ease of use.

E225	**EFFICIENT AND RESPONSIVE STATE GOVERNMENT**				
	The quality of Nevada's transportation infrastructure impacts all Nevadans' daily lives. Recognizing that a strong transportation network is a key component in Nevada's continued economic recovery, authority is requested to accept and expend bond proceeds to fund project NEON in Clark County as a design-build project. Bond principal payments are planned to be reimbursed with federal funds at 95%, with a 5% state match. Project benefits include: improved safety, reductions in traffic congestion, improved connectivity and mobility for city redevelopment efforts, economic development and revitalization of Southern Nevada's transportation system.

	The major purpose of the Management Analyst IV position is to provide technical and administrative expertise to the Division of Industrial Relations (DIR) Administrator's Office in support of the management, administration, and operation of the Division. The Management Analyst IV will report directly to the Deputy Administrator and perform duties to ensure the Division meets its core mission to promote the health and safety of Nevada employees and to ensure that injured employees receive all workers' compensation benefits to which they are entitled.				
	The Management Analyst IV assists in the administration and management of the Division's operating entities: Workers' Compensation Section(WCS), Nevada OSHA, Safety Consultation and Training Section (SCATS), Mechanical Compliance Section (MCS), Mine Safety and Training Section (MSATS). Duties include: ensuring compliance with budget limitations, applicable laws, regulations, policies and procedures; analysis, planning, development and implementation of the Division's operational plan; development of programs, policies and procedures to ensure that goals and objectives of the are met; serve as contract manager for the Division; assists in Personnel matters as assigned by the Division Administrator; assists with Information Technology issues of the Division; testifying before the Legislature regarding the Division's business; and reviewing, analyzing and preparing various financial reports and assisting with issues related to Bill Draft Requests (BDR).

E226 EFFICIENT AND RESPONSIVE STATE GOVERNMENT

The purpose of this training is as follows 1) Both Nurses are required to have continued education for their CEUs in order to maintain their registered nursing licensing.

2) The supervisors are required to keep up to date with the consistent changes in programs and technology of Microsoft Office because their duties as well of those they supervisor, require daily report & letter writing as well as the creation and/or modifications of templates that have not been modified in over 10 years. Due to the new Windows 7 that was recently installed onto our new office computers and required by the State IT to use, many of our employees need training for this new program.

E227 EFFICIENT AND RESPONSIVE STATE GOVERNMENT

The Division has numerous issues that affect productivity and communication with other agencies which necessitates the need for an IT Professional III with programming expertise. The Division of Industrial Relations (DIR) is requesting additional information technology staff for the purpose of meeting the critical needs in managing, maintaining and controlling information services equipment, networks and data systems. The Division has 219 positions, 18 servers covering 3 networks and a number of large and extremely complex mission critical data management programs. As the complexity and volume of the Divisions' information systems tasks accelerates, the complexity of the duties performed within the Division's existing Informational Technologies positions have also increased.

E550 **TECHNOLOGY INVESTMENT REQUEST**

The Division of Industrial Relations, Workers Compensation Section (WCS) regulates Nevada's workers' compensation programs to ensure that injured workers receive timely and accurate delivery of wage loss compensation, physical impairment compensation, medical compensation, and rehabilitation benefits through a comprehensive program of training, auditing and investigation. The section ensures employer compliance with the mandatory coverage provisions. In addition, the section regulates employers, private insurers, self-insured employers, associations of self-insured public and private self-insured employers, third party administrators, managed care organization and health care providers.

The Division of Industrial Relations, Workers Compensation Section (WCS) is looking to implement a solution to effectively meet their information requirements. WCS has two major systems that support the section:

* Claims Indexing - Custom built by DoIT approximately 10+ years ago
* Versa Regulation - A Commercial-Off-the-Shelf (COTS) a regulatory licensing and enforcement system.

The section also has various user developed Access databases and spreadsheets that are used to fill major "gaps" in functionality.

The agency has been surveying other worker compensation jurisdictions to see what types of viable solutions are available.

E729	**NEW EQUIPMENT**				
	This Decision Unit will replace the agencies motor pool leased vehicles with agency owned vehicles. The cost compared to purchase is much higher based upon how long the agency usually keep cars. The variable cost per mile is high and can potentially be a budget buster depending on monthly usage. Every time a car needs any maintenance, including oil changes, the car MUST be taken to the state motor pool. This can delay the repair or maintenance causing us to be without the vehicle for additional time than might otherwise be the case. Car washes are also at a specified location nowhere near the office resulting in additional lost production time.

Item No	Description	Actual 2013-2014	Work Program 2014-2015	A01 Year 1 2015-2016	A01 Year 2 2016-2017
	A review of the unclassified salaries of the Department of Business and Industry was conducted to determine if certain salaries should be raised as compared with other Business and Industry unclassified salaries. The Division of Industrial Relations (DIR) is the largest Division within the Department of Business and Industry. The Division is charged with enforcing the laws, rules, and regulations relating to worker and public safety through the Occupational Safety Health Administration (OSHA) program, mine safety program, safety and consultation program, and inspection of elevators. In addition, the Division Administrator and Deputy Administrator must interact with several advisory boards associated with OSHA. This requires the management of multiple staff in numerous locations throughout the State. The Division of Industrial Relations Administrator and Deputy Administrator are responsible for the overall certification and implementation of the State's OSHA program. The salary of the Division Administrator should be raised to $117,030, and the Deputy Administrator salary should be raised to $95,650, which would be comparable with the Division of Insurance, which is the second largest Division within Business and Industry.
